

30538 KoreTrak Gen2 IM

FRONT SIDE

CHARGING THE BATTERY

• Charge the watch using the supplied magnetic charging cable. The watch will charge when the red light on the cable is lit.

TO TURN ON YOUR WATCH

• Long press the crown button to turn on the watch.

WATERSHED THE WATCHING

• The watch is water-resistant to 50 meters. It is not recommended to use the watch in deep water or for long periods of time.

INSTALLING THE KORE GEN2 APP

• Download the Kore Gen2 app from the App Store or Google Play.

CONNECTING YOUR KORE GEN2 TO YOUR SMARTPHONE

• Open the Kore Gen2 app and follow the instructions to connect your watch to your smartphone.

HOME SCREEN

• The home screen displays the time, date, weather, health data, and other information.

HEALTH DATA

• The health data section displays various health metrics, including heart rate, blood glucose, and sleep.

BLOOD GLUCOSE MONITOR

• The blood glucose monitor measures your blood glucose levels using a non-invasive method.

HEART RATE MONITOR

• The heart rate monitor measures your heart rate using optical sensors.

SLEEP

• The sleep monitor tracks your sleep patterns and provides insights into your sleep quality.
