

FindMe™ Smart Locator Key Fob

Powered by HAE Innovations

FindMe is a slim, durable, and smart Bluetooth-enabled key fob that helps users locate their keys, bags, pets, and other valuables using Google's Find Device™. Designed for convenience and security, it delivers real-time tracking, audio-visual indicators, and seamless integration with Android devices. With a distance range of 300–500 ft, **FindMe** is your ideal companion for locating your precious things.

Key Features

- ◆ **Google Find My Device™ Certified** – Seamlessly track items in the Find Device app
- ◆ **Audio Alerts** – Integrated **piezo buzzer** provides loud beeping to help find items
- ◆ **Visual Indicators** – **RGB LED** pulses blue when active, red when battery is low
- ◆ **Motion Sensing** – Embedded **accelerometer** detects unwanted tracking
- ◆ **Long Battery Life** – Rechargeable **Li-ion battery** (90mAh) lasts up to **12 months**
- ◆ **Compact & Stylish** – **63 x 35 x 6 mm** with a premium aluminum edge finish
- ◆ **BLE Connectivity** – Connects via **Bluetooth Low Energy**
- ◆ **Water-Resistant Design** – Future-ready for pet use (e.g. Water bowl dunking)
- ◆ **Laser Branding Area** – Custom dealership or enterprise logo engraving area

Use Cases

-  **Key Locator** – For vehicles, home, and office
-  **Pet Tracker** – Attach to collars, water-resistant
-  **Luggage Finder** – International support

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
