无线充电/已充满电	熄灭	显示当前电量																																							
已启动无线充电	蓝灯闪一次	显示当前电量																																							
正在充电	蓝灯常亮	显示当前电量																																							
检测到金属异物	蓝灯闪长亮, (30秒后指示灯熄灭)	蓝灯闪烁																																							
电量已满	1. 手机如有充满自给功能, 无线充电将停止工作; 蓝灯熄灭; 2. 手机如无充满自给功能, 无线充电将处于充电工作, 蓝灯闪烁, 维持手机100%电量	熄灭																																							
关闭电源	熄灭	熄灭																																							
容量	5000mAh $\pm 7\%$ (18.5Wh)																																								
USB-C 输入	5W/2.4A																																								
USB-C 输出	5W/2.4A																																								
无线输出	7.5W(MAX) 磁吸功能																																								
<p><b>IMPORTANT SAFETY INSTRUCTIONS</b></p> <ol style="list-style-type: none"> <li>1) Store the product in a cool and dry place.</li> <li>2) Do not store the product in a hot or humid environment.</li> <li>3) Use of power supply or charger not recommended or sold by the product manufacturer may result in a risk of fire or injury to person.</li> <li>4) Operating temperature should be between 0°C to 40°C/14°F to 104°F.</li> <li>5) Do not disassemble the product. Take it to a qualified service person when service or repair is required. Incorrect assembly may result in a risk of fire or injury to persons.</li> <li>6) If the product is not used for long periods of time you should charge and discharge once every three months.</li> <li>7) When charging a device, the product may feel warm. This is a normal operating condition and should not be a cause for concern.</li> <li>8) In normal conditions, the battery performance will decline over several years.</li> <li>9) Do not dispose of the product in heat or fire.</li> <li>10) Do not clean the product with harmful chemicals or detergents.</li> <li>11) Misuse, dropping or excessive force may cause product damage.</li> <li>12) When disposing of secondary cells or batteries, keep cells or batteries of different electrochemical systems separate from each other.</li> <li>13) Be aware that a discharged battery may cause fire or smoke. Tape the terminals to insulate them.</li> </ol> <p><b>Customer Service</b></p> <ul style="list-style-type: none"> <li>12-month Limited Warranty</li> <li>Lifetime Technical Support</li> </ul>	<p><b>Recharging Your Portable Charge</b></p> <p>While recharging your power bank, the battery level indicator will show the current battery level and the wireless charging indicator will turn off.</p>  <p><b>运行状态</b>    <b>无线充电指示灯</b>    <b>电量指示灯</b></p> <table border="1"> <tr> <td>无线充电/已充满电</td> <td>熄灭</td> <td>显示当前电量</td> </tr> </table>	无线充电/已充满电	熄灭	显示当前电量	<p><b>Spec</b></p> <table border="1"> <tr> <td>Capacity</td> <td>5000mAh <math>\pm 7\%</math> (18.5Wh)</td> </tr> <tr> <td>USB-C Input</td> <td>5W/2.4A</td> </tr> <tr> <td>USB-C Output</td> <td>5W/2.4A</td> </tr> <tr> <td>Wireless Output</td> <td>7.5W(MAX) Magnetic function</td> </tr> </table>	Capacity	5000mAh $\pm 7\%$ (18.5Wh)	USB-C Input	5W/2.4A	USB-C Output	5W/2.4A	Wireless Output	7.5W(MAX) Magnetic function	<p><b>Charging Devices Wirelessly and Recharging Your Portable Charge Simultaneously</b></p> <p>You can charge power bank at the same time while the device is wirelessly charging. The wireless charging indicator will be steady blue, and the battery indicator will show the current battery level. One light flashes, and the other lights display power normally.</p> 	<p><b>Working Status</b>    <b>Wireless Charging Indicator</b>    <b>Battery Level Indicator</b></p> <table border="1"> <tr> <td>Wireless charging activated</td> <td>The blue light flashes once</td> <td>Shows the current battery level</td> </tr> <tr> <td>Charging</td> <td>Blue light is on</td> <td>Shows the current battery level</td> </tr> <tr> <td>Metal or abnormal objects detected</td> <td>Flashing blue and off after 30s</td> <td>The blue light flashes, (the indicator light goes out after 30 seconds)</td> </tr> <tr> <td>Fully charged</td> <td>Flashing blue or some phones the indicator will turn off when the battery is fully charged</td> <td>Off</td> </tr> <tr> <td>Wireless charging off</td> <td>Off</td> <td>Off</td> </tr> </table> <p><b>Note:</b></p> <ul style="list-style-type: none"> <li>• You cannot charge your device wirelessly in these scenarios: <ul style="list-style-type: none"> <li>• When using a case with a pop socket</li> <li>• When using an ultra-thin (&lt;2mm) protective phone case</li> <li>• Do not use adapter with an output of 5V/1A (5W) or less</li> <li>• Wireless chargers make charging more convenient than wired chargers, but confined by current wireless technology, their charging speed is slower than that of wired chargers</li> <li>• High temperatures will reduce charging speed and restrict power, which is something that happens to all wireless chargers. It is recommended that you charge your device in environments with temperatures below 28°C/77°F</li> <li>• Both the protective phone case and the position of your device on the wireless charger will affect the charging speed</li> <li>• Further, it is placed from the center of the wireless charger, the slower the charging speed will be.</li> </ul> </li> </ul>	Wireless charging activated	The blue light flashes once	Shows the current battery level	Charging	Blue light is on	Shows the current battery level	Metal or abnormal objects detected	Flashing blue and off after 30s	The blue light flashes, (the indicator light goes out after 30 seconds)	Fully charged	Flashing blue or some phones the indicator will turn off when the battery is fully charged	Off	Wireless charging off	Off	Off	<p><b>Charge Other Devices</b></p> <p>For other phones that support wireless charging, align your phone with the charging logo on the charger. If no charging icon shows on your device, try adjusting the position of the phone. (Note: The wireless charging function is designed for iPhone 12 series, and this function can not be used for other mobile phone models)</p> 	<p><b>Charging the iPhone 12 Series and Other Devices Wirelessly</b></p> <ul style="list-style-type: none"> <li>• <b>Charging the iPhone 12 Series</b> <ul style="list-style-type: none"> <li>○ To activate the wireless charging function, short press the power button. The wireless charging indicator will flash blue once.</li> <li>○ Place your iPhone 12 on the charger as illustrated below and it will be in place magnetically. The wireless charging indicator will flash blue, indicating it is charging your phone</li> </ul> </li> </ul>  <p><b>运行状态</b>    <b>无线充电指示灯</b>    <b>电量指示灯</b></p> <table border="1"> <tr> <td>无线充电/已充满电</td> <td>熄灭</td> <td>显示当前电量</td> </tr> </table>	无线充电/已充满电	熄灭	显示当前电量	<p><b>Charge Your Phone or Tablet Using Charging Cables</b></p>  <p><b>运行状态</b>    <b>无线充电指示灯</b>    &lt;</p>
