Photo 6

A black, portable, battery-powered speaker with a carrying handle and control buttons, shown next to a measuring tape for scale. The speaker has a carrying handle on top, a control panel with buttons for power, volume, and other functions, and a large speaker grille. A measuring tape is placed horizontally next to the speaker for scale, showing it is approximately 15 cm wide.

A close-up photograph of the back of a black, textured device. From left to right, the features are: a circular microphone port labeled 'MIC', a small square button labeled 'ON/OFF', a horizontal slot labeled 'TF' (likely for a TF card), a USB-C port labeled 'DC5V', and a standard USB-A port labeled 'USB'. The device has a carrying handle at the top.
