尺寸:7x9CM

Instructions for Use

It is recommended to use cable and an adapter that meets the PD or QC protocol 25Wto achieve the best user experience

- 1. Connect the adapter to the power supply, and the indicator light will light up, vPlace the phone that meets Oi wireless charging standards in the sensing area to charge, and the magnetic wireless charger will automatically locate it through magnetic force.
- 2. The wireless charging function of the base also requires users to place devices that meet Oi's wireless charging standards in the sensing area to enable wireless charging.
- 3. The iWatch charging module can be ejected and retracted and can charge the iWatch when ejected.
- 4. LED ambient lights can provide multiple lighting modes to choose

Please check whether your mobile phone is compatible with wireless charging before use. Only charging devices that comply with the Qi wireless charging standard can be used

- 1. Magnetic wireless charging function is only applicable to iPhone 12 13 14 15 series phones; iPhone 8-11 and Android phones only support wireless charging.
- 2. In order to achieve a better charging experience, it is recommended to use a PD or QC 25W power adapter for charging.
- 3. Do not put metal/magnet/credit card on the charger, otherwise it will affect the wireless charging, or even make it fail to charge.
- 4. Do not splash water or other liquids on the wireless charge you need to clean it up, please make sure that the power is disconnected first.
- 5. This product has the function of input over-current and over-voltage protection. The improper use will shut down or reduce the output power. Please check whether the device is abnormal or improperly
- 6. Please do not disassemble.

07

7. Incorrect use or improper placement of the product by the user may lead to a reduction in the service life of the product or damage to the product. The consequence thus incurred is not within the scope of the warranty or the manufacturer's responsibility. We hope you can kindly

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party

responsible for compliance could void the user's authority to operate the

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio

However, there is no guarantee that interference will not occur in a particular nstallation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one

- or more of the following measures:
 -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to
- which the receiver is connected.
