

JUNCO NBOOK

NB-YWS-I501

Quick Guide

Date of purchase: _____

Place of purchase: _____

ENVIRONMENT

Temperature:

- Operating: 5°C to 35°C
- Non-operating: -20°C to 65°C

Humidity(non-condensing):

- Operating: 20% to 80%
- Non-operating: 20% to 80%

First things first

We would like to thank you for making an notebook your choice for meeting your mobile computing needs.

Your guides

To help you use your notebook, we have designed the quick guide:

First off, the Quick Guide introduces you to the basic features and functions of your new computer.

It covers basic topics such as using the keyboard and audio, etc. This guide contains detailed information on such subjects as system utilities, data recovery, expansion options and troubleshooting. In addition it contains warranty information and the general regulations and safety notices for your notebook.

Software installation

The first time you turn on your computer, it will automatically install software and set up for use. This may take some time, please do not turn off your computer; wait until the installation has finished.

Recovery

You should create recovery backups as soon as you can. The pc Recovery

Management program allows you to create recovery backups and then to restore or reinstall applications and drivers provided by your pc.

Having trouble?

This pc provides several options to support your purchase.

PC support

Make sure you write down your computer serial number, date and place of purchase and model name on the area provided in this guide; save your proof of purchase.

Before you call us, please write down any error message that accompanies the problem, and have the computer in front of you and switched on if possible. Having these items to hand when contacting us will ensure better and quicker service.

Pc website

Remember to visit **www.juncoelec.com** and refer to the support section for up-to-date information, help, drivers and downloads.

Warranty and contact information

You can find information about the warranty for your computer and how to contact technical support in your computer's Warranty.

Your notebook tour

After setting up your computer, let us show you around your new computer.

Screen view

| # | Item | Description |
|---|----------------|--|
| 1 | HDMI Connector | HDMI 1.4, Supports high-definition digital video connections. |
| 2 | USB 3.0 Port | Connects to USB devices. |
| 3 | Type-C | USB 3.1 function, Connects to USB devices. |
| 4 | Camera & MIC | Web Camera for Video communication. Digital MIC for Talking communication |

| | | |
|----|-------------------|--|
| 5 | Display Panel | High-definition Displays computer output |
| 6 | LED | LED 1: Power on/off LED, Charging LED LED 2: Hard Disk LED LED 3: WIFI LED |
| 7 | Keyboard | Backlight Keyboard, For entering data into your computer. |
| 8 | Touchpad | Touch-sensitive pointing device. The touchpad and selection buttons form a single surface. |
| 9 | Touchpad buttons | Press down firmly on the touchpad surface to perform a left click. Press down firmly on the lower right corner to perform a right click |
| 10 | Power | Turns the computer on and off. |
| 11 | Audio jack | Connects to headphone |
| 12 | USB 2.0 | Connects to USB devices. |
| 13 | LAN | Connects to network |
| 14 | Charger connector | Connects to an AC adapter. |

Base view

Using the keyboard

The keyboard has full-sized keys and separate cursor, lock, Windows, function and special keys.

Hotkeys

The computer employs hotkeys or key combinations to access most of the computer's controls like screen brightness and volume output.

To activate hotkeys, press and hold the <Fn> key before pressing the other key in the hotkey combination.

| Hotkey | Function | Description |
|----------------|--------------------|---|
| < Fn> + <Esc> | Sleep | Puts the computer in Sleep mode. |
| < Fn> + <F1> | WIFI toggle | Turns the WIFI on and off |
| < Fn> + <F2> | Voice toggle | Turns the voice on and off |
| < Fn> + <F3> | Touchpad toggle | Turns the built-in touchpad on and off. |
| < Fn> + <F5> | Bluetooth Toggle | Turns the Bluetooth on or off. |
| < Fn> + <F7> | Display toggle | Switches display output between the display screen, external monitor (if connected) and both. |
| <Fn> + <F8> | Display off | Turns the display screen backlight off to save power. Press any key to return |
| < Fn> + < F9> | Keyboard backlight | Turns the keyboard backlight on and off |
| < Fn> + < F10> | Prt Scr | Copy the current full screen section |
| < Fn> + <F11> | Scr Lk | Turns the scroll lock feather on or off |
| < Fn> + <F12> | Num Lk | Switch key of numeric keyboard in secondary keyboard. |
| < Fn> + <↑> | Brightness Up | Increases the Screen Brightness |
| < Fn> + <↓> | Brightness Down | Decreases the Screen Brightness |
| < Fn> + <←> | Volume Down | Decreases the sound volume |
| < Fn> + <→> | Volume Up | Increases the sound volume |

Declaration of Conformity

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Product: Notebook Computer

Trade Name: JUNCO

Name of Responsible Party: Suzhou Industrial Park Dubu Electronic CO.Ltd

Address of Responsible Party: Weiting Science and Technology Park, Suzhou
Industrial Park, Jiangsu Province

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

SAR Information Statement

Your JUNCO NBOOK is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radiofrequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin

designed to assure the safety of all persons, regardless of age and health. The exposure standard for JUNCO NBOOK employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. * Tests for SAR are conducted with the JUNCO NBOOK transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the JUNCO NBOOK while operating can be well below the maximum value. This is because the JUNCO NBOOK is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output. Before a JUNCO NBOOK model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government adopted requirement for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model when worn on the body, as described in this user guide, is **0.353W/Kg** (Body-worn measurements differ among JUNCO NBOOK models, depending upon available accessories and FCC requirements). While there may be differences between the SAR levels of various JUNCO NBOOK and at various positions, they all meet the government requirement for safe exposure. The FCC has granted an Equipment Authorization for this model JUNCO NBOOK with all reported SAR levels evaluated as in compliance with the FCC RFexposure guidelines. SAR information on this model JUNCO NBOOK is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/fccid> after searching on FCC ID: **2AXC9N253** Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications Industry Association (CTIA) web-site at <http://www.wow-com.com>. * In the United States and Canada, the SAR limit for JUNCO NBOOK used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of **10mm** must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not

comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
