

Rider Alert Technology
114 Holly Avenue
Staten Island, NY 10308

To Whom It May Concern,

Applications for Certification for FCC ID: 2AXDXRAT143

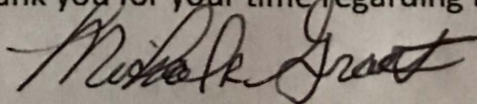

Our label location exhibit ; placement of our label will be on the inside of the radio under the battery.

Reasons as follows:

- Radio is small and the only place to put the label would be on the back of the unit ; which is the battery and is removable.
- As per the FCC and IC rules, the label is not permitted to be placed on a removable part of the device.
- Therefore, we will place it under the battery.

When the radio is purchased, the battery is not installed. Hence, the label is readily viewable at the time of purchase.

Thank you for your time regarding this matter.

A handwritten signature in black ink, appearing to read "Michael R. Grant". The signature is fluid and cursive, with the first name "Michael" and last name "Grant" clearly distinguishable.
