Wireless pairing

Please charge for 3 hours before first use. Press and hold the power button for 5 seconds to turn on the speaker.

Turning on your phone, enter the Bluetooth pairing mode, select the Bluetooth pairing name "ZY-01" on the device, complete the connection, and hear the prompt tone.

The speaker will complete the connection within 5 seconds. If the connection is not completed within 5 minutes, the Bluetooth speaker will automatically shut down.

When the connection range is exceeded, Bluetooth automatically disconnects, accompanied by a "disconnected" prompt sound; after entering the connection range again within 5 minutes, Bluetooth automatically connects, accompanied by a "connected" prompt sound.

Charging equipment

Built-in rechargeable lithium batteries power wireless speakers. Find the Type-C charging port, connect one USB port of the charging cable to a computer or USB charger, and the other to the Type-C port of the zy-01 Bluetooth speaker. The red indicator light turns on to indicate successful charging, and the indicator light turns off when fully charged.

Kindly Reminder

Before first use, please make sure it is fully charged and used in a dry environment!
Keep the product out of reach of children.
Use a soft cloth to clean the product instead of harsh chemicals.
Be sure to disconnect the power supply before cleaning.
Do not pierce or disassemble the outer surface of the product in any way.
Do not insert any metal objects into the device to prevent impact on the device.

Frequently Asked Questions

Why can't the speaker pair with my phone?

Make sure the Bluetooth speaker is fully charged and powered on

Make sure your phone's Bluetooth is turned on

If both of the above are OK, press and hold the power button for 8 seconds to reset it, wait for one minute, turn on the Bluetooth speaker, and re-pair it with your phone.

Why is there no sound from the Bluetooth speaker?

Please make sure that the distance between your phone and the Bluetooth speaker is within 10m.

Is the Bluetooth speaker waterproof?

The zy-01 Bluetooth speaker is sweat-proof and slightly waterproof. For electronic products, we do not recommend soaking the earbuds in water. Please use them in a dry environment."

FCC STATEMENT :

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
