

LED mobile phone Bluetooth controller

LED mobile phone Bluetooth controller

Product Features

- LED Bluetooth controller is directly via mobile phone control remote distance can reach 10m without the need to set up, easy to connect open the software within 5 seconds you can automatically connect the controller
- Flow the rhythm of the music changes
- Group control
- Brightness, speed addition and subtraction
- Maximum can be 10 meters SPI driven strip, up to 200 pixels.
- The software shows that the text is based on the language of the mobile phone set up automatic transformation of Chinese, English and other local languages.

Animation Effect:

- Different color control of each group of LED point.
- Colorful gradient
- All kinds of monochrome, double color gradient
- All kinds of monochrome, double color, colorfull flashing
- Colorful jump
- Follow the rhythm of the music changes

Product Parameters:

- SPI Strip Type: WS2811, SM16703, 16730p, SG1903, etc.,
- Bluetooth: BLE V4.2
- Input Voltage: 4.5~12V
- Working Temp: -25~75°C
- Size: 43*22*11mm

Portable IR Controller

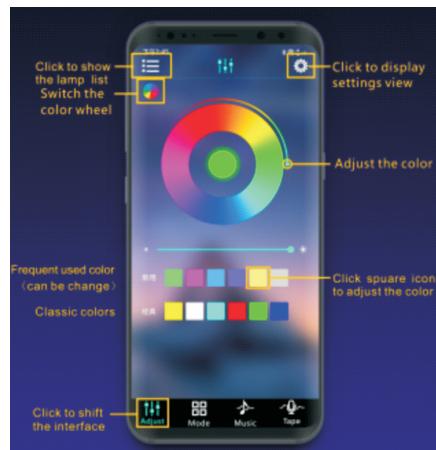

Portable and easy to use IR controller.

Key Functions:

1. Turn on, turn off lights
2. Auto loop all modes
3. Speed +/-
4. Mode up/down
5. Lights +/-
6. 12-classic color shortcuts.

APP Program Usage

Scan two-dimensional code download APP

- ① Connect LED color strip and controller, power on controller

- ② Scan two-dimensional code download APP:

- ③ Start APP, search and connect controller

- ④ Enjoy the Bluetooth wireless control experience

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
