The magnetic chuck can rotate 360 degrees

The magnetic chuck can be flipped 180 degrees back and forth

The suction cup support arm can be rotated by 90 degrees and instantly becomes a shooting assist device

The gimbal arm can be flipped by 195 degrees

● Retrieving and Storing for Selfie Shutter Remote

1. Take out the selfie shutter remote upwards from the top of the product. When putting it back in place, it will be fixed automatically by magnetic attraction

2. You can also put the selfie shutter remote into the selfie shutter remote slot on the handle, and it can instantly turn into a selfie stick

● Operation Instructions for Selfie Shutter Remote

1. Turning on/off: Press and hold the camera button for 3 seconds to turn on or off the device. Once turned on, the power-on indicator light will blink and enter the Bluetooth searching status.
2. Bluetooth connection: Turn on the Bluetooth function on your mobile phone and enter the Bluetooth search interface. Search for and click on "WONEW-ZZ" to pair. After a successful connection, the indicator light will go out.
3. Auto shutdown without connection: The remote control will automatically shut down after approximately 20 minutes of inactivity when it is not connected.
4. Auto shutdown when connected: When the remote control is connected to the mobile phone, it will enter the sleep state after about 10 minutes of inactivity. And it will automatically shut down after another 10 minutes of inactivity.
5. Sleep mode: After entering the sleep state, press the camera button once to reconnect to the mobile phone

● Accessories list

Installation of the magnetic attraction sheet:

For mobile phones that do not have the built-in MagSafe magnetic attraction function, it is necessary to attach a magnetic attraction sheet for use. First, peel off the double-sided adhesive tape on the magnetic attraction sheet, and then stick the magnetic attraction sheet onto the back of the mobile phone case

● Parameter

Material: Aluminum alloy/Nylon+fiber
Weight: 174 ± 5g
Storage size: 115±2mm
Floor height: 215 - 435mm
Phone fixation: MagSafe
Variable forms: Shooting assist device
/Selfie stick/Tripod
Bluetooth name: WONEW-Z2
Bluetooth version: 5.4V
Battery capacity: 30mAh
Charging interface: TYPE-C (5V/1A)
Remote distance: 10m

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this printed expression are the user's responsibility. Compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The user should be evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
