We have received an email from the FCC (oetech@fcc.gov) at 03/17/2025 request us to provide an update on the percentage of users from the list of models provided on 12/09/2024 that have updated to compliant firmware.

The firmware upgrade rate for all models has exceeded 70%, with seven models surpassing 80%. Through software push notifications, we have ensured firmware compliance for the vast majority of devices within a short timeframe. For the remaining non-upgraded devices, we will persistently implement firmware push notifications and email reminders to prompt users to complete the upgrade process.
