

User's Manual

1. Earphones Introduction

WIRELESS v.5.4

2. Key Functions

Power switch:

Power On: When removing both earbuds from the charging case, they will automatically power on and pair to each other. After pairing, the red and blue lights alternately flash slowly and synchronously. Make sure Wireless on your Smartphone Bluetooth enabled device is turned on. Search for the pairing name "SP97" to connect the device. After pairing, the light will go off. Power off: Press for about 4 seconds to power off.

Receive/hang Up Phone Call/Redial:

When receiving a phone call press the center button to answer the call, press it again to end the phone call. Hold it for 3 seconds to reject the phone call. Press it twice to re-dial the last phone number you called.

Play/Pause:

In music mode, press 1 time to pause, and press again to play. (When there is an incoming call, the music will stop.)

If Earbuds fail to sync to each other:

Insert both earbuds into the charging case for 3 seconds. Upon removing them, they will automatically re-pair to each other.

Charging bay indicator light:

Connect the included USB charging cable to the charging port. When charging, the red light flashes, and when it is full, the red light is on.

The power delivered by the charger must be between min 2.5 Watts required by the radio equipment, and max 10 Watts in order to achieve the maximum charging speed.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
