5. Open the video and series to be played, and put the mobile phone into the bracket position;
6. Use of volume increase or decrease and Song change key: short press "add or subtract" to change the up and down song, long press "add or subtract" to change the volume of the song;

### Product parameters

Product Name: eye protection mobile phone screen amplifier bracket  
Bluetooth model: P01  
Product size: 287x171x28.8mm  
Screen size: 12 inches  
Product material: optical plexiglass + environmental protection ABS  
Product color: gentleman black, literary white, Morandi powder, apple green  
Outer carton specification: 470 (L) x370 (W) X310 (H) mm  
Net weight: 560G (including battery)  
Gross weight: 610g  
Gross weight of each box: 18.8kg  
Quantity per case: 30pcs

### Bluetooth speaker design

Bluetooth version: V5.0  
Support protocol: A2DP / AVRCP / HFP / HSP  
Bluetooth effective distance: >10M (barrier free)  
Playback time: 5-6h (default comfortable volume)  
Battery capacity: 3.7V 2000mah (18860)  
Charging current: 5V about860ma; 9V about370ma  
Charging time: 5V about860ma about2.5h; 9V about370ma about2.5h  
Interface: Micro / USB / TF Card

### Material selection attention

1. Avoid using under strong light line
2. When using, adjust the brightness of the mobile phone screen to the brightest view
- 3.The best viewing distance is 1.5m-2.0m
4. It is better to open the bottom support foot for close viewing
5. Screen magnifying lens needs to be protected and cleaned
6. Wireless charging needs to achieve 10W charging effect and 8V adapter is required. 5V adapter intelligence has 5W charging effect, which is done according to Qi protocol
7. The screen lens is of detachable structure. When disassembling and assembling, the textured surface must face the viewing surface, otherwise the picture will be blurred, and the assembly must be transferred to the end.

### Product instructions

**FCC Warning Statement**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
