

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing three components of an Electronic Under Test (EUT) against a blue background. On the left is a white, circular, dome-shaped component. To its right are two elongated, white, U-shaped components with blue stitching along their edges. A black ruler with white markings is positioned vertically on the left and horizontally at the bottom for scale.
EUT Housing and Board View 2	 A photograph showing two views of the EUT housing. The left view shows the interior of the white housing, revealing a green printed circuit board (PCB) with gold-colored components and solder. The right view shows the exterior of the white housing, which has red markings. A black ruler with white markings is positioned vertically on the left and horizontally at the bottom for scale.

Solder Board-Component View 7	 A photograph of a circular white component with a yellow cross-shaped marking. Two thin copper wires are attached to the component. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 8	 A photograph of a square-shaped component with a copper-colored outer ring and a black center. Two thin copper wires are attached to the component. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
