## TV SOUNDBAR

### HD BLUETOOTH SPEAKER

Fabulous Stereo with HDMI for the TV and an RCA Phono for a turntable

***Drama*** ***Queen***

***Drama Queen*** is a bold and beautiful high fidelity stereo Bluetooth speaker / TV soundbar for the luxury customer who is looking for something that looks stunning and has a fabulous sound. Equipped with the latest Bluetooth 5.1 and AptX HD from Qualcomm, it's stereo performance will seduce your senses in every way. Finished in real ebony veneer, ***Drama Queen*** has an etched stainless steel grille and the curve of its body will add a sculptural focal point to any interior. Fitted with HDMI for TV, it also has an RCA PHONO input for use with an external stereo turntable. It's twin 77mm woofers have complimenting twin passive bass drivers and the midrange has 2 x 52mm cones and the highs have 2 x 20mm silk cone tweeters giving a magnificent deep and impressive 50W orchestral sound.

#### What is AptX HD?

Qualcomm AptX HD was designed for high resolution audio. This enhanced codec supports 24-bit music quality over Bluetooth, which means listeners can hear even the smallest details in their music, making it indistinguishable from true high resolution audio.

#### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
