Subject: RADIO Certification of OCP_ICSD-S1, OCP_ICSD-S2, and OCP_ICSD-ActiveDispense

Applicant: EZERZER Hugo

Product (PMN): OCP_I0494, OCP_I0308, OCP_I0281

Model (HVIN): OCPICSDSCM

FCC ID: 2AXRGOCPICSDSCM

IC ID: 26545-OCPICSDSCM

To Whom It May Concern:

We would like to submit the above product for Certification concerning FCC and Canadian rules.

Please review all required documents enclosed.

Please note that this request is made under Class II Permissive Change in a Limited Modular Approval context.

This application is dedicated to ATM protection range of products: based on ink staining solutions, it permits to reduce to zero the benefits of any kind of ATM attacks.

As an extension of **OCP_G0289** radio design, those references (**OCP_I0494**, **OCP_I0308** and **OCP_I0281**) use the same characteristics (schematic and routing basis). They are integrated in three products (**OCP_ICSD-S1**, **OCP_ICSD-S2**, and **OCP_ICSD-ActiveDispense**), and they are dedicated to communicate with **OCP_SCM** one.

Compliance for RF exposure requirement was demonstrated in those test reports.

If you have any queries, please do not hesitate to contact us.

Regards,

EZERZER Hugo, January 15th 2021
