The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these materials may be harmful to the applicant and provide unjustified benefits to its competitors.

According to User Manual confidentiality, our aim is to get a long term one, in order to protect our knowhow:

- Since our business is to secure ATM safe part and especially banknotes, it is really important that installation and user manual of such devices do not fall under a public access.
- By the way, it could be helpful for thieves to have in their hands any information about which secure elements are provided to secure ATMs.
- This document provides technical details on how the ATM are secured against criminal activities. Having such information made public would obviously weaken the protection we are offering our clients.

- Moreover, such a document is not shared with any of our contacts unless a proper and signed NDA agreement has been signed before between both parties.  
⇒ An example of NDA form is available on '*OCPICSDSCM Opdes1.pdf*' file.

We also require keeping internal photo file as confidential to permit to keep electronic parts and designs as secure as possible.

The applicant understands that pursuant to Section 0.457 of the Rules, disclosure of this application and all accompanying documentation will not be made before the date of the Grant for this application.

If you have any queries, please do not hesitate to contact us.

Regards,
