Battery specifications: 3.7V 250mAh.

Charging voltage: DC 4.2-5.5 V

Charging time: 1.5 h approx.

Talk/music play back: Above 6 hours

Stand by time: 80h approx.

#### Bluetooth pairing Step 1

1. Turn on your headphones, the bluetooth of the headphones will turn on automatically. Turn on your mobile phone (or any other device) to a distance in the range of 1 meter, the closer the better.

2. For pairing; turn on the user's mobile phone Bluetooth function (or other Bluetooth devices). Search or scan, then the phone will look for nearby Bluetooth devices, tap or select the headphones name.

3. The headphones confirm the pairing state with a prompt voice saying the words: "bt is connected successfully", the blue lights will flash alternately.

4. If necessary enter the password 0000, after a successful connection, the headphones' lights will turn blue and will flash indicating a successful connection. Now you can listen to the music of your connected device.

#### Tips:

1. The phone has been successfully paired, when the headset is turned on again, it will automatically connect again.

2. Bluetooth headset pairing time up to 240 seconds, beyond this time will quit pairing status, if you are still not successful pairing, you must repeat the above steps.

3. Headset will automatically shut down after the non-connection exceeds 10 minutes.

#### Step PC Connection

First download and install a generic Bluetooth driver software. If your computer does not have the Bluetooth adapter.

After successfully installing the Bluetooth device driver, your computer will have a small icon on the right corner of the screen.

After plugging in the Bluetooth adapter, right-click the icon at the lower right corner of the screen and select 'Show Classic Interface'.

Turn on the Bluetooth headset, press and hold the multifunction key until red and blue lights flash alternately (the match), then enter the headset's search status.

Right-click on the computer screen, select "Search Device", then the headphones must be in pairing mode (red and blue lights flash alternately), then the device will search all nearby Bluetooth devices.

Double-click the computer search to the Bluetooth Headset. Now your Bluetooth headset has successfully connected to a computer, you can now listen to music.

## FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment . This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
