

尺寸：60x90mm  
材质：105G铜板纸  
折叠：风琴折  
正反面四色印刷

**Qi2.2 3-in-1  
Wireless charging stand  
USER MANUAL**

## Package

3 in 1 Desktop Wireless charger \*1

\*1

Type-C charging cable

\*1

User Manual

\*1

**Functional component**

### Product specification

Input: 9V-3A/12V-3A/15V-3A

Phone Output: 5W/7.5W/10W/15W/25W

Earphone Output: 5 W

Watch Output: 2.5 W (Apple Watch/Samsung Watch)

Mobile phone charging distance:  $\leq 4\text{MM}$

Input interface: type-C interface

Magnetic attraction: 0.8 KG

Product size: 147.5mm\*114.7mm\*157.2mm

## Use steps

1. Connect the power supply and power up the product.
2. Place the phone/earphone/watch in the corresponding charging position and charge it normally.

**LED intelligent indicator**

Mode	Indicator Light
Powered	The light breathes for 5s and then keeps on
Standby	On
Wireless Charging	For phone: The light breathes for 5s and then keeps on; Fan works For earphone and watch: The light keeps off
Full Charged	Off, Fan stops
FOD	For phone charging area: The light keeps flashing; goes off after move away the objects For earphone and watch: no FOD indicator

## Touching button functions

Mode	Functions
Click	Switch ON/OFF the light & fan; With vibration feedback

### Applicable Devices

1. Smartphone: For non-MagSafe phones, please use an extra magnetic ring or MagSafe case to use this product.
2. Input compatibility: QC3.0, PD3.0 and other protocols (Recommended: PD45W)
3. When the input voltage is 5V, the device will flash a warning light (due to the low 5V voltage, the power of the three in one charging is high, which may cause the watch to disconnect, please use a 9V adapter)
4. When the input is greater than 12V/3A, charging the phone separately can reach a maximum of 25W
5. When the input is greater than 15V/3A, charge the phone 25W, earphones 5W, and watch 2.5W simultaneously
6. The maximum charging power of iPhone 12-16 series and Samsung S25 series is 15W; The other Samsung phones have a maximum charging power of 10W; The maximum charging power supported by Huawei Android and other mobile phones is 5W

### Caution

1. Do not over squeeze or collide with the equipment.
2. Please do not place it too close to the magnetic card (ID card, bank card, etc.) with magnetic stripe or chip to avoid magnetic card failure.
3. Do not use 5V adapter as insufficient power which may cause charging interruption. Please use 9V adapter for power supply.

## Warranty

The guarantee period of this product: from purchasing date (Prevail to the customer receipt date or invoice date), provide 12 months guarantee, product surface man-made damage, accessories missed are not include in this guarantee, repair service for the product is out of the guarantee period or not covered by warranty, customer need to pay the repair charge.

**FCC Warning**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC RF exposure statement:**

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
