## USER MANUAL (FCC STATEMENT)

**FCCID:** 2AXTU-ELITE

This is a copy of the page where the FCC statement is included:

**User manual:** User Manual V4

### FCC statements:

*Contains FCC ID : SSSBC127-X*

*Contains IC : 11012A-BC127*

### **§15.21**

*Caution: the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.*

### **§15.105 b)**

*NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct interference by one or more of the following measures:*

- Reorient or relocate the receiving antenna.*
- Increase the separation between the equipment and receiver.*
- Connect the equipment into an outlet on circuit different from that to which the receiver is connected.*
- Consult the dealer or an experienced radio/TV technician for help.*

### **RF Exposure**

*This device complies with FCC radiation exposure limits set forth for general population. This device must not be co-located or operating in conjunction with any other antenna or transmitter.*

### **Important about the Bluetooth Module**

#### Notice

*Due to the nature of wireless communications, transmission and reception of data can never be guaranteed. Data may be delayed, corrupted (i.e., have errors) or be totally lost. Although significant delays or losses of data are rare when wireless devices such as the Bluetooth modem are used in a normal manner with a well-constructed network, the Bluetooth modem should not be used in situations where failure to transmit or receive data could result in damage of any kind to the user or any other party, including but not limited to personal injury, death, or loss of property. The manufacturer accepts no responsibility for damages of any kind resulting from delays or errors in data transmitted or received using the Bluetooth modem, or for failure of the Bluetooth modem to transmit or receive such data.*

#### Safety and Hazards

*Do not operate the Bluetooth modem in areas where blasting is in progress, where explosive atmospheres may be present, near medical equipment, near life support equipment, or any equipment which may be susceptible to*

**LCIE SUD EST**

*any form of radio interference. In such areas, the Bluetooth modem MUST BE POWERED OFF. The Bluetooth modem can transmit signals that could interfere with this equipment. Do not operate the Bluetooth modem in any aircraft, whether the aircraft is on the ground or in flight. In aircraft, the Bluetooth modem MUST BE POWERED OFF.*

*When operating, the Bluetooth modem can transmit signals that could interfere with various onboard systems. Note: Some airlines may permit the use of cellular phones while the aircraft is on the ground and the door is open. Bluetooth modems may be used at this time.*

*The driver or operator of any vehicle should not operate the Bluetooth modem while in control of a vehicle. Doing so will detract from the driver or operator's control and operation of that vehicle. In some states and provinces, operating such communications devices while in control of a vehicle is an offence.*
