WARM REMINDER

- Notes:**
1. Please read this manual carefully before use and keep it properly.
 2. For the first use, please fully charge the product.
 3. Please use certificated adapter that has passed national safety certification.
 4. If you do not use the product for a long time, be sure to charge it once within a month at least to maintain its performance.
 5. Do not use this product in an extremely cold or hot environment. Use in a correct environment such as temperature range of 5°C - 35°C. If use it beyond the above range, the product may stop automatically to protect the internal circuit.
 6. When charging it in a high temperature environment, the product may automatically stop charging to protect the battery.
 7. Storage environment temperature: -5 ~ 35°C RH < 70% (recommended 25°C ± 5%).

Important safety instructions:

1. Do not disassemble or repair this speaker personally, otherwise it may cause product damage or personal injury.
2. Do not use it in dusty, humid, dry, and high-temperature environment.
3. Do not place this product near a heat source, or place with direct sunlight, a lot of dust, or mechanical vibration.
4. In order to reduce the risk of fire, please do not cover this product with newspapers, tablecloths, curtains etc., during use.
5. If the product has a waterproof feature, please do not exceed the nominal parameter range when using it.
6. When the product is damaged (such as the power cord or plug is damaged, liquid enters or objects fall into the device, unable to operate normally or falls), it must be repaired.
7. When the product is fully charged, do not connect it to the charger for further long time charging. (The indicator in the back should be turn darker or turn off when product is fully charged.)
8. The maximum ambient temperature should not exceed 40°C.

07

Federal Communications Commission (FCC) Statement.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide Reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by **Universal Electronics, Inc.** may void the FCC authorization to operate this device. Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

RF exposure statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.
