## Charge

The headphone uses a built-in rechargeable battery, the first use of the headphone must be fully charged to the battery. In use, if the voice promps "low battery", the battery is low, and you need to charge the headphone.

The charging cable should be connected to the headset's magnetic charging port, about 2 hours to fill. Charging status indicator is red light, full charge often blue light.
**Note**
Magnetic charging has a positive and negative polarity correspondence, mutual adsorption can be charged normally, and mutual repulsion will not charge or even cause a short circuit.

⚠ The rechargeable battery of this product must be properly disposed of for recycling. Please do not place the battery in a fire to avoid explosion.

## Power On/Off

| Function | Operation | Indicator |
|---|---|---|

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## FCC Statement

**Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition, compliance with exposure requirements.

## Product warranty card
This card is a product warranty certificate, please keep it properly
