ERIKA E-label Declaration

FCC §2.935 Electronic labeling of radiofrequency devices.

(a) Any radiofrequency device equipped with an integrated electronic display screen, or a radiofrequency device without an integrated screen that can only operate in conjunction with a device that has an electronic display screen, may display on the electronic display the FCC Identifier, any warning statements, or other information that the Commission's rules would otherwise require to be shown on a physical label attached to the device.

Information	On e-label	In Manual
FCC ID number	Yes	Yes
15.19 Statement *("This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference and (s) this device must accept any interference received, including interference that may cause undesired operation.")*	No	Yes
Class B Digital Device user manual statement	No	Yes
Caution to the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment	No	Yes

Image of the e-label screen is provided below:
Model: Erika

**United States of
America**

FCC ID: 2AXWYERIKA

(b) Devices displaying their FCC Identifier, warning statements, or other information electronically must make this information readily accessible on the electronic display. Users must be provided with prominent instructions on how to access the information in the operating instructions, inserts in the packaging material, or other easily accessible format at the time of purchase. The access instructions may also be provided via the product-related Web site, if such a Web site exists; the packaging material must provide

specific instructions on how to locate the website information, and a copy of these instructions must be included in the application for equipment certification.

Access to the required information on the e-label:
Users are able to access the information in no more than three steps in a device's menu. The actual steps are:
Open firmware update application > press question mark button
