

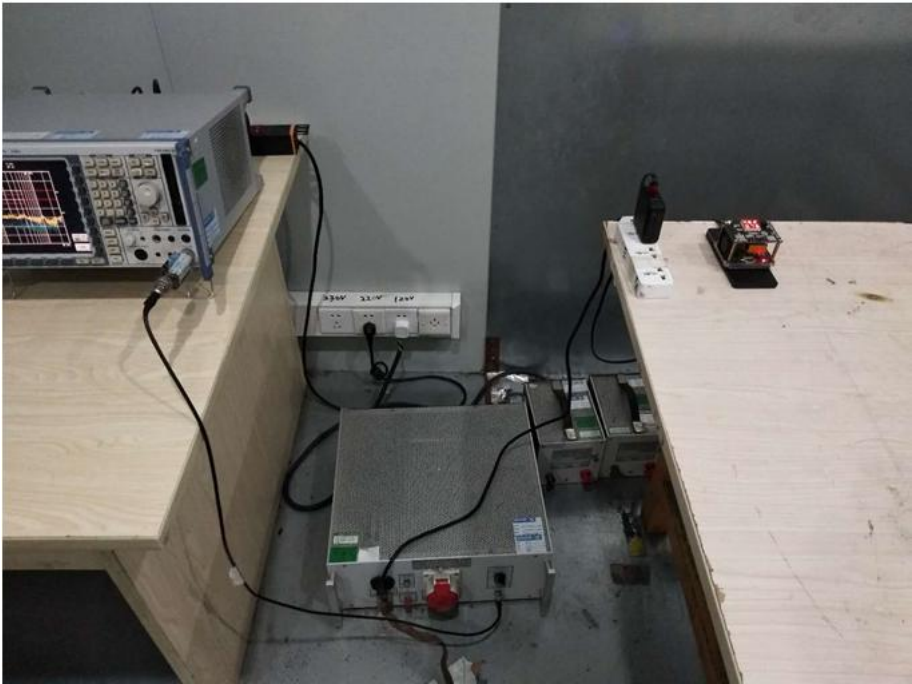

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On a wooden workbench, there is a spectrum analyzer on the left and a power supply unit on the right. Cables connect the two devices. A power strip is visible on the wall behind the equipment.
Radiation Emission View (Below 30MHz)	 A photograph showing a radiation emission test setup. A yellow test chamber is placed inside a shielded room with white, square-shaped absorbers on the walls. A metal frame is positioned in front of the chamber, and a black cylindrical object is visible in the foreground.

Radiation Emission
View (30MHz to 1GHz)
