To Whom It May Concern:

We would like to submit the above product for Certification concerning FCC and Canadian rules.  
Please review all required documents enclosed.

This application is a sports sunglasses product that incorporates ActiveLook technology.  
This head-up data display device allows the user to view information on his sporting practice in the glasses,  
when using the latter. The technology includes a projector, a smart module with Bluetooth connectivity,  
a rechargeable battery, and a motion and ambient light sensor.

Compliance for RF exposure requirement was demonstrated in this test report.
