## PRECAUTIONS BEFORE USE

1. Usage of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure or fire or electrical shock. Keep below instructions in mind.
2. Do not cover or block any ventilation openings. When placing the device on a shelf, leave 5cm (2") free space around the whole device.
3. As the laser beam used in this player is harmful to the eyes, do not attempt to disassemble the casing.
4. Do not touch the lens or poke at it, may damage the lens and the player may not operate properly.
5. Stop operation immediately if any liquid or solid object fall into the cabinet. Unplug the player and have it checked by qualified personnel.
6. Keep the player away from heat sources such as radiators, heaters, stoves, candles and other heat-generating products or naked flame. Working temperature between 0° and 35°C.
7. Avoid using the player near strong magnetic fields
8. This player must operate on a power source as specified on the specification label.
9. Unplug this player during lightning storms or when unused for a long period.
10. Make sure this player is adjusted to a stable position. Damage caused by using this player in an unstable position vibrations or shocks or by failure to follow any other warning or precaution contained within this user manual will not be covered by warranty.
11. To clean the device, use a soft dry cloth. Do not use solvents or petrol based fluids.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

## COMPLIANCE WITH FCC REGULATIONS

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user 's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver . - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/ TV technician for help. RF Exposure The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

USB disk playback

## BLUETOOTH PAIRING AND PLAY OPERATION

This function enable to stream audio wirelessly from Bluetooth devices(such as laptops, tablets, smartphones and so on) Before using a wireless device with Bluetooth, please make sure that the device has its Bluetooth radio enabled and switched on.

Then you will need to establish a connection between it and the player. This process is called “pairing” and you will only have to do it once. Once two devices are paired, they will automatically connect when they detect each other.

1.press the Function button on the player to bluetooth mode, the “ **bE** ” will show up on LED display. And if it does not detect a paired device,it will automatically switch to pairing mode,the “ **bE** ” on display will flash when the player is in pairing mode.

2.On your bluetooth device,go to its bluetooth setting menu.

3.Have your bluetooth device “search for device” and select the player (W17) when it is found.Enter 0000 as a passkey if device ask for one.

4. When pairing is complete, the player is ready to play and the " **bE** " on the display will show up steadily.
5. Use the bluetooth device to control playback (e.g., stop, play, next, previous).

The player will automatically connect to your bluetooth device next time as long as it has bluetooth enabled, and be within range (10M).

If the pairing process fails, the " **bE** " on display will flash slowly. Please follow the steps as above.

Press and hold STOP button to disconnect from current bluetooth device and go to pairing mode for a new device.

## **RADIO PLAY OPERATION**

1. Press the Function button on the player to switch to FM Radio mode. The screen shows "rAd" then it will display some radio station number (87.5-108).

2. Rotate the tuner to select desired radio station, the frequency number will show on the display.

Use the radio in a place where radio signals can be easily received, such as near a window.

Reorient the unit itself to improve reception if necessary.

## CARE AND MAINTENANCE

1. Unplug the player before maintenance or cleaning.
2. Clean the unit with a soft, damp (never wet) cloth. Solvent or detergent should never be used.

**CAUTION:** Never allow any water or other liquids to get inside the unit while cleaning.

3. Clean the CD disc if skips or will not play. Wipe the disc from the center out with a cleaning cloth, after playing, store the disc in its case.

4. If the CD lens is dusty, clean it with a brush-blower, blow several times on the lens and remove the dust with the brush. Finger prints may be removed with a cotton swab moistened with alcohol.
