

User Guide
Bluetooth Remote Control

1 Description
The Bluetooth Remote Control is designed to control remotely device's selected functions and to navigate its menu.

2 Specifications

Frequency	2.4 GHz
Standard	IEEE 802.15
Connection Range, m	< 3
Voltage / Battery	3V / CR2032
Dimensions, mm / inch	43x70x17.6 / 1.7x2.8x0.7
Weight, g / oz	39.5 / 1.39

3 Description of Control

Power Button	1) Powered on/off 2) Image calibration 3) Return to the menu
Capture button	1) Photography/video recording 2) Enter the last menu
E-Zoom button	1) Digital zoom 2) Enter the next menu
Rangefinding mode	1) Enter the menu 2) Confirm option parameters and return to the previous menu
Menu button	

4 Remote Control Activation

- Open Bluetooth of device;
- Automatically pair with the nearest remote control;
- ★ Connection Range: < 3m;

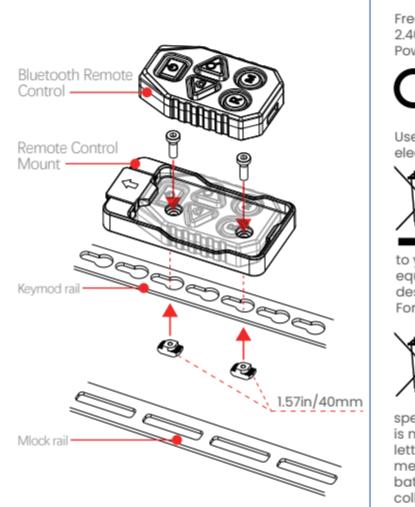

Note: Only one remote control can be connected to the device at a time.

5 Battery Installation

Rotate to open the cover.

6 Installation

3.0V lithium battery coin cells

7 Legal and Regulatory Information

Regulatory information for USA

Frequency range of Bluetooth radio module: 2.400-2.4835GHz.
Power of radio module: < 20dBm
Infray Technologies Co., Ltd. declares that the Bluetooth Remote Control complies with the directives 2014/53/EU and 2016/851/EU.
User information on the disposal of electrical and electronic devices (private households)
2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info

2023/542 (Battery Regulation): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

8 Safety Instructions for Use

- Remove and immediately recycle or dispose of used batteries. Do not expose batteries to heat above (manufacturer's specified temperature rating) or incinerate. Doing so may result in fire due to heating, leakage or explosion resulting in damage to persons or property.
- Ensure the batteries are installed correctly according to polarity (+ and -).
- Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
- Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
- If possible, completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

WARNING

- INJECTION HAZARD: This product contains a small, hard, sharp metal part. DEATH or serious injury can result if ingested. Do not swallow. If swallowed, seek medical attention immediately. Do not allow children to swallow small parts.
- CHOKING HAZARD: Small parts can pose a choking hazard to children. Keep children away from small parts. If a child swallows a part, seek medical attention immediately. Do not allow children to swallow small parts.
- Do not allow children to swallow small parts. If a child swallows a part, seek medical attention immediately. Do not allow children to swallow small parts.
