Poor sound quality	The selected FM station is the same as a broadcast FM station	Change to another FM station																					
No audio transmitted	Incorrect FM station selected	Adjust the device FM station to match the vehicle FM station																					
The car stereo is very noisy in radio mode	High volume level selected on the car stereo	Turn up the volume of Bluetooth connected device and turn down the volume of the car stereo to reduce noise																					
Can't recognize the MicroSD card or flash drive	The slot only support up to 128 GB	Replace the memory card with a capacity less than 128 GB
