TY-RC01 remote control

For T&Y portable teleprompters
TY-KY03, TY-TT, TY-MT

Overview

This TY-RC01 remote control is designed to be used with T&Y's portable series teleprompter products, TY-TT, TY-KY03, TY-MT.

In order to better work with our teleprompter, we carefully selected teleprompter apps from the market, and finally selected DV prompter to match our products. DV Prompter app is a FREE download from the Apple app store and Google Play.

Pairing to your tablet/ smart phone device

Switch the Bluetooth function ON within the tablet/ smart phone device settings.

Open the DV Prompter app and choose Bluetooth-WR-500 in the Remote setting.

Press the above top Play/Pause button, the light on the top of the TY-RC01 will now flash repeatedly several times to indicate that it is ready to pair with the tablet/ smart phone.

Once paired a Bluetooth icon will be displayed in the lower right corner of the app.

Note: The remote will sleep after 5 minutes of inactivity to save battery life. Press the play/pause button to wake the remote and it will automatically try to re-pair with the tablet previously used.

Control method

While scrolling text

- ▶ || : Pause text
- ▲, ▼ : Speed up / slow down text scroll

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
