- Operation Temperature Range: 32~113°F/ 0~45°C
- Charging Temperature Range: 41~95°F/ 5~35°C
- Charging Case Size: (W) 2.44" (H) 1.97" (D) 1.12inch / 62 x 50 x 28.5 mm

Safety Instructions:

- Never disassemble HA-B6T/HA-D6T in an attempt to make any repairs as this could result in electrical shock, burns, or product failure.
- Use extra caution in high temperatures.
- Do not expose HA-B6T/HA-D6T to direct heat or flame.
- HA-B6T/HA-D6T is not covered under warranty when the product has metal rust, surface spalling and any other natural oxidation.
- Damage, shock, and/or injury can occur if these warnings are not heeded.
- HA-B6T/HA-D6T may become warm while charging.
- Make sure to always turn both HA-B6T/HA-D6T and power outlet off completely before unplugging it.
- Make sure HA-B6T/HA-D6T has plenty of ventilation.
- Only use dry cloth to keep HA-B6T/HA-D6T clean from dust.
- Do not press the buttons too hard as it could damage the HA-B6T/HA-D6T.
- Never try to repair HA-B6T/HA-D6T yourself, take it to a Certified Technician.
- Trying to remove panels or repairing it yourself could lead to electric shock.
- When it is not in use, make sure it is correctly turned off and stored in a cool, dry place.
- Do not insert foreign objects into HA-B6T/HA-D6T.
- Avoid dropping HA-B6T/HA-D6T, as harsh impacts could damage it.

Note:

- * Above operation can be processed on Bluetooth® devices synchronously.

Bluetooth® Pairing :

- When Power On without Bluetooth® Pairing, the White and Red LED will alternately flash rapidly to indicate that the HA-B6T/HA-B6T Earphones are in Bluetooth® Pairing Mode.
- On your Bluetooth® enabled Device (Smartphone, Tablet, Media Player), navigate to the Bluetooth® setting menu, Turn On the Bluetooth® feature, and search for "JVC HA-B6T" or "JVC HA-D6T". Type Password "0000" or "1234" if requested.
- You will hear the Beep when the Bluetooth® Device is connected, and LED Indicator is Off when connected.
- You can start playing the music on your Devices now.
- HA-B6T/HA-D6T will be automatically reconnected to the last Paired Bluetooth® Device when Powered On again.

Voice Assistant:

- Touch & Hold Left-Touch Sensor for 2 sec. to Activate Voice Assistant.
- Touch & Hold Left-Touch Sensor for 2 sec. again will Deactivate Voice Assistant.
- Some of Voice Assistants are not compatible.

Power Control:

- HA-B6T/HA-D6T will Power Off automatically if not connected within 5 minutes after being Powered On.
- Low Battery Notification Beep will occur when the battery is lower than 10%.

Charging to the Charging Case:

- Please use Charging Cable (USB) which comes with Gift Box.
- Connect to the USB-C™ Charging Port located at bottom of the Charging Case.
- Connect the USB-A (larger end of the Cable) to your Computer's USB Port or an AC adaptor. (Not included)
- The LED Indicator will Turn RED and flash while charging and goes ON when fully charged.

Charging the Earphones:

- The LED Indicator will Turn WHITE and flash while charging and goes Off when fully charged.
- Please make sure both Earphones are put into the Charging Case correctly when charge to the Earphones.

Factory Reset:

- Please take Earphones out from the Charging Case, then Touch and Hold both for 10 sec. until WHITE flashes 3 times, indicating the reset is complete.

WARNING FOR BATTERY:

Please do not handle the battery in the following manners.

- Dispose in Fire, discard, crush or cut
- Leave in extremely high temperature environment
- Leave in extremely low pressure environment

For USA:

FCC CAUTION

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:—Reorient or relocate the receiving antenna.—Increase the separation between the equipment and receiver.—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.—Consult the dealer or an experienced radio/TV technician for help. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

Power Consumption	Standby mode	0.12 W
	Networked standby mode	0.008 W
