Reference for correct placement

LED usage

The product is with LED indicator
When power on and standby: **Light is red**
When wireless charging: **Light is blue**

Tips: When you do not need the light on, you can touch the touch switch on the back of the product to turn off it

REMARKS

1. The charging adapter you used should meet with QC2.0, QC3.0 or QC4.0 standard.
2. The Type C charging cable you used should be the data cable, not the charging function only.
3. It' s normal that this charger and your smart phone will be hot under operating conditions, especially when the phone charging and using at the same time(such as playing music).
4. The charging adapter is not included. A charging adapter is required.
5. Not works with 5V/1A or lower input. For safety, please do not use less than 5V/1A input charger or USB port to power up.
