Features:

1. Plug and play, non-inductive connection, say goodbye to wired constraints.
2. 2.4GHz+5GHz, fast data transmission speed and low latency.
3. Support OTA upgrade, online feedback, solve problems quickly.
4. Continue the buttons, knobs and other operations of the original car.
5. Compatible with the original car microphone, continue the original car sound quality.

Parameter:

CPU: Allwinner V851S

Wi-Fi Module: Realtek 8733BS

MFI: MFI 3959

Input Voltage: DC 5V±0.2V=0.15A

Power Input: DC 5V±0.2V=0.15A

Power Consumption: 0.75W

Wi-Fi Frequency: 5150-5850MHz / 2412-2462MHz

Bluetooth Version: 4.2

Working Temperature: -20°C~70°C

Storage Temperature: -30°C~80°C

Material: ABS+PC

Colour: Black

Surface Treatment: Mirror finish + back frosted finish

Compatible Mobile phone: Required iPhone 6 or later

iPhone models with IOS 10 or above for wireless Carplay function. Or required an Android smartphone that support latest Android Auto function and with Android 11 or higher for wireless Android Auto function.

Compatible Car: Car with factory wired CarPlay or Android Auto.

Resolution: Adaptive (maintain the original protocol resolution)

Language: Automatically switch according to the vehicle language environment.

Port: LED light, USB female port (Some models also have Type-C female port adaptor)

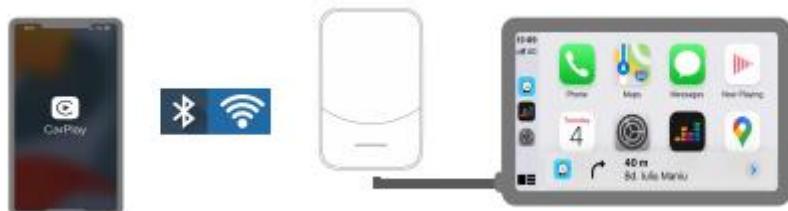

Product Size: × × mm

Package Dimensions: × × mm

Product Weight: 0.032 kg

Packing Gross Weight: 0.134kg

Wireless connection:

Packing List:

Packing box*1

Type-C to TYPE-C data cable*1

User manual*1

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
