

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	
EUT Housing and Board View 2	

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'LR 14071A', placed on a blue textured surface. The component features a gold-colored SMA connector on the left, a black cylindrical component at the top, a red ribbon cable on the right, and a black rectangular component at the bottom right. Two black rulers are positioned around the component for scale: one vertically on the left and one horizontally at the bottom. The vertical ruler shows markings from 0 to 100 mm, and the horizontal ruler shows markings from 0 to 100 mm.
Solder Board-Component View 2	 A photograph of the same green printed circuit board (PCB) component, labeled 'LR 14071A', placed on a blue textured surface. The component features a gold-colored SMA connector on the left, a black cylindrical component at the top, a red ribbon cable on the right, and a black rectangular component at the bottom right. Two black rulers are positioned around the component for scale: one vertically on the left and one horizontally at the bottom. The vertical ruler shows markings from 0 to 100 mm, and the horizontal ruler shows markings from 0 to 100 mm.

Solder Board-Component View 3	 A photograph showing a green printed circuit board (PCB) with various electronic components. A gold-colored SMA connector is visible on the left side. A black battery with red and black wires is connected to the board. The PCB is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters. The text "Test Label" is visible on the PCB.
Antenna View	 A photograph showing the antenna assembly of the device. The green PCB is shown with the antenna connector. A red line points from a red-bordered box containing the text "433.22MHz Antenna" to the antenna connector. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.
