## FCC certification No. Cover Letter

We, Shenzhen qianfenyi intelligent technology co., LTD., hereby submit justification for placing the FCC certification No. in the associated Booster, user's manual and packaging.

According to the FCC regulation, the FCC certification No. should be printed on the Probe, but as the Probe is too small to print the label (FCC ID: 2AYOTME-TEMP01), it will be moved to the Booster, user's manual and packaging. The details are as below:

- A. Side surface (A): The side surface does not provide enough physical space to fit the printing of the FCC certification No. according to below reference picture.

- B. Top cover (B): The top cover does not provide enough physical space to fit the printing of the FCC certification No. according to below reference picture.

Conclusion: Based on the above description of area A to B, we conclude that the device is unquestionably too small for enabling the FCC certification No. to be printed onto any surface. We therefore request to move the FCC certification No. to the Booster, user's manual and packaging.

Label:

label location: (affix the label in the bottom of the Meatmeet Pro Wireless Smart Meat Thermometer-Booster)
