

# User Guide

Real Time Temperature Humidity  
Location Data Logger

Fresh-key (Shanghai) Technology Co., Ltd.

Fresh-key RT | Fresh-key RTH | Fresh-key RTHL

## Fresh-key RT/RTH/RTHL Front View ▼

## Fresh-key RT/RTH/RTHL Back View ▼

\* Design and specifications are each subject to change without notice. Ask Fresh-key for the current technical specifications before purchase and/or use.

## LED Instruction ▼

- Green LED flashes once every ten seconds – Running Mode
- Green LED flashes twice every ten seconds – Abnormal Communication
- Red LED flashes – Function abnormal

## How to use ▼

- Pull out the strip at the bottom of the device to start;
- Log in <http://www.fresh-iot.com>, type in the device ID to track the current temperature humidity and location status;
- In case of abnormal communication or battery issue, please do not use the device and report it through the contact information on the back of the device for replacement.

## How to place ▼

- Place the device directly into the package;
- RT device can also be placed in the enclosed sticky bag and attach on the pallets of the container.

## Other Notes ▼

- Do not place the device around the fire source to avoid battery damage;
- Do not seal the Fresh-key RTH/RTHL device with plastic packaging, otherwise the humidity collection accuracy will be affected.

Real-time GPRS temperature, humidity and location tracker
