Please ensure the adapter that you're using is certified, meets standard requirements, and is compatible with the product. Please avoid using or leaving the product in direct sunlight or high temperatures for prolonged periods.</p> <p>2. Devices must be placed right side up for charging and stable.</p> <p>3. Operating temperature: 0~45°C.</p> <p>4. Before discarding the product, detach the case with the appropriate tool and remove the lithium-ion battery. Insert the battery into the recycling bin. Please note: it is powered off. Please dispose the battery in a safe manner.</p> <p>5. Please do not place the product on an inclined surface off° or more.</p>	<p><b>⑪ FCC Statement</b></p> <p>This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.</p> <p>However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p>	<p><b>⑫ Recorient or relocate the receiving antenna.</b></p> <p>- Increase the separation between the equipment and receiver.</p> <p>- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.</p> <p>- Consult the dealer or an experienced radio/TV technician for help.</p>	<p><b>⑬ IC warning</b></p> <p>This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following conditions: 1) this device may not cause interference and 2) this device must accept any interference, including interference that may cause undesired operation of the device.</p> <p><b>Radiation Exposure (Only WPT):</b> This equipment complies with Canada radiation exposure limits set forth for an environment of uncontrolled exposure. To maintain compliance with IC's RF Exposure guidelines, this equipment should be installed and operated with minimum distance of 20 cm between the device and its antenna(s) must not be co-located or operated in conjunction with any other antenna or transmitter.</p> <p><b>Directive 2014/53/EU Canada:</b> Cet appareil contient un émetteur (s) / récepteur (s) qui sont certifiés conformément à l'innovation, Sciences et Développement économique Canada RSS exemptes. L'utilisation est soumise à la condition suivante: 1) cet appareil ne peut pas causer d'interférences et 2) cet appareil doit accepter toute interférence, y compris peut provoquer le fonctionnement indésirable de l'appareil.</p>	<p><b>⑭ Exposition aux rayonnements (Only BT):</b> Cet équipement est conforme aux normes de Canada limites d'exposition pour un environnement incontrollé d'exposition. Pour maintenir le respect des guides d'exposition RF IC, cet équipement doit être installé et utilisé avec une distance minimale de 20 cm le radiateur de votre corps. Cet appareil et ses antennes ne doivent pas être co-localisé ou en opération en conjonction avec toute autre antenne ou émetteur.</p> <p><b>Directive 2014/53/EU Canada:</b> Cet équipement est conforme aux normes de Canada limites d'exposition pour un environnement incontrollé d'exposition. <p><b>① Wireless Charger</b></p> <p>1. Place a phone that supports wireless charging on the wireless charging pads as shown in the above figure. If the indicator light (M) flashes slowly, it indicates that the phone is charging.</p> <p>2. Place the Portable Speaker and tap light on either magnetic charging dock to charge the device.</p> <p>3. All three indicator lights indicate the charging status. During charging, the corresponding indicator light will flash slowly. The light stops flashing and remains on when the device is fully charged.</p> <p>If the phone is not charging normally, the indicator light (M) will start flashing rapidly. To ensure:</p> <p>1. The back of your phone should not have any metal, pop-sockets, or credit cards.</p> <p>2. The phone is centered on the charging surface (this fits the charging coil in your phone line up with the one inside the wireless charger).</p> <p>3. Phone cases should be no thicker than 5 mm for effective charging.</p> <p>Charging port is the standard type-C port.</p>	<p><b>② How to use</b></p> <p>1. When used with a 5V adapter, its maximum output is 5W. When used with an adapter that is QC2.0 or above, its maximum output is 10W. It can detect foreign metallic objects.</p>	Product	Wireless Charger	Model	ST207A	Dimension	202x107x25mm (7.95x4.21x.98 in)	Input	5V-2A	Output	5W MAX	Input	9V-2A	Output	10W MAX	<p><b>④ Portable Speaker</b></p> <p>If no device is paired successfully within 10 minutes, the speaker will turn off automatically. Turn it on again to pair with the device.</p>	<p><b>⑤ How to use</b></p> <p>Press the button and hold for 2 seconds. The speaker will emit a notification sound to indicate that it is on. The flashing indicator light indicates that the speaker is paired successfully. You can connect the speaker to your phone and search for "EZVALO ST2" under available devices. Select "EZVALO ST2" to pair automatically. Once paired, the speaker will emit a notification sound. The indicator light will remain on as long as the device is connected.</p> <p><b>⑥ Multi-Function Button</b></p> <p>1. Turn on the speaker and hold for 2 seconds. The speaker will emit a notification sound to indicate that it is on. The flashing indicator light indicates that the speaker is paired successfully. You can connect the speaker to your phone and search for "EZVALO ST2" under available devices. Select "EZVALO ST2" to pair automatically. Once paired, the speaker will emit a notification sound. The indicator light will remain on as long as the device is connected.</p>	<p><b>⑦ Tap Light</b></p> <p><b>⑧ How to use</b></p> <p><b>Turning On/Off</b></p> <p>Touch the Tap Light on the charging pad/magnetic charging dock. All the corresponding indicator light on the charging pad/magnetic charging dock will turn on. The Tap Light will light up gradually. Touch again to turn it off. The light will dim slowly until it is completely off. (Please do not hit the Tap Light repeatedly.)</p> <p><b>Charging</b></p> <p>Please turn on the charging pad/magnetic charging dock. All the corresponding indicator light on the charging pad/magnetic charging dock will turn on. The Tap Light will flash slowly, it indicates that the Tap Light is charging. It stops flashing and remains on when the Tap Light is fully charged.</p>
