

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the back of a black plastic EUT housing. A ruler is placed vertically on the left side, with markings from 1 to 47. A small black component is placed above the housing. The housing has a central label with 'FC RoHS' and other text. There are two small rectangular slots on the left and right sides of the housing.
EUT Housing and Board View 2	 A photograph showing the back of the same black plastic EUT housing. A ruler is placed vertically on the left side, with markings from 1 to 47. Two small components are placed above the housing: a small black component and a small gold-colored component. The housing has a central label with 'FC RoHS' and other text. There are two small rectangular slots on the left and right sides of the housing.

Board View 3**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, identified as a solder board component. The component is rectangular and features a series of gold-plated pins along its top edge. It is placed on a blue textured surface. Two metal rulers are used for scale: a vertical one on the left showing millimeter markings from 1 to 8, and a horizontal one at the bottom showing centimeter markings from 1 to 8. The PCB has a white label with a circular logo and text that includes "RAF003118 VER:01" and "20010105M".
Antenna View	2.4G Antenna  A photograph of the same green PCB component from a different perspective, showing the antenna side. The component is placed on a blue textured surface. Two metal rulers are used for scale: a vertical one on the left showing millimeter markings from 1 to 9, and a horizontal one at the bottom showing centimeter markings from 1 to 10. A red rectangular box highlights a specific area on the right side of the PCB, and a red line points from the text "2.4G Antenna" to this box. The PCB features various electronic components, including a large black chip and several smaller components.
