after finished charging.

#### Operation

#### Reset:

- Delete the BT pairing information on the phone.
- With the earbuds on and no Bluetooth device connected,  
Click Earbuds L/R control area "5 times(X5)".

#### FAQ

##### Q: Earbuds won't power on.

Check whether the case has a battery, If not, power on  
the earbuds manually (touch the MFB for 2s). If you can't  
hear the prompt sound from earbuds that means earbuds  
are out of battery, Place both earbuds in the charging  
case and then charge the case. The indicator of case  
will flash in yellow.

##### Q: The Earbuds can't pair with my phone.

- Please turn off the BT of other devices, make sure the  
earbuds are in pairing mode.
- Clear the pairing history of the earbuds and your phone.  
Turn off the BT then turn on, and try again.

##### Q: Why there is a delay?

There is a data transmission process from your phone to  
the product, so sometimes you can feel delay. It's a  
common issue for all the BT devices, and BT V5.3 already  
made it better than the old versions.

##### Q: Only 1 earbud pair with my phone.

- You need to let the L & R earbuds pair first, and then turn  
on phone Bluetooth to pair with the earbuds.

#### FCC Compliance Statement

##### NOTE:

This equipment has been tested and found to  
comply with the limits for a Class B digital device, pursuant  
to Part 15 of the FCC Rules. These limits are designed to  
provide reasonable protection against harmful interference  
in residential installation. This equipment generates uses  
and can radiate radio frequency energy and, if not installed  
and used in accordance with the instructions, may cause  
harmful interference to radio communications. However,  
there is no guarantee that interference will not occur in a  
particular installation. If this equipment does cause harmful  
interference to radio or television reception, which can be  
determined by turning the equipment off and on, the user  
is encouraged to try to correct the interference by one or  
more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and  
receiver.

#### RF Exposure Warning Statements

##### NOTE:

The device has been evaluated to meet general RF  
exposure requirement. The device can be used in  
portable exposure condition without restriction.

#### CORRECT DISPOSAL OF THIS PRODUCT

##### NOTE:

(Waste Electrical & Electronic Equipment)  
This marking shown on the product or its literature,  
indicates that it should not be disposed with other  
household wastes at the end of its working life.

To prevent possible harm to the environment or human  
health from uncontrolled waste disposal, please separate  
this from other types of wastes and recycle it responsibly  
to promote the sustainable reuse of material resources.

To prevent possible harm to the environment or human  
health from uncontrolled waste disposal, please separate  
this from other types of wastes and recycle it responsibly  
to promote the sustainable reuse of material resources.
