Scan the QR code to download and install the APP.
Note: Downloading the APP on iPad or Tablet is not supported.

Compatible with iOS 9.0 & above and Android 5.0 & above.

If the watch's firmware or the APP is not the latest version, it may affect the usage of the watch or the APP. Please update the watch's firmware and the APP to the latest version.

Firmware Upgrade: [CoolWear] → [Device] → [Firmware upgrade] → [upgrades].

APP Upgrade: [CoolWear] → [Profile] → [About] → [update].

APP Connection

1. Turn on Bluetooth and GPS function on your mobile phone.
2. [CoolWear] → [Device] → [Add device] → Tap on the searched watch name to pair it.

Mobile Phone Settings

Ensure that the permission of notifications of APP in your mobile phone is turned on: [Mobile phone] → [Settings] → [Notifications] → [Permissions] → [CoolWear] Set all permissions to ON.

- Special Note 1: For Apple phones with operating system above iOS 12, go to [Settings] → [Bluetooth] → [Device name] → tap ⓘ → [Share system notifications] → Ensure it's ON.
- Special Note 2: If you open an application (WeChat/Skype/WhatsApp, etc.) both on your computer and mobile phone, then no notification message will be displayed on the watch.

Special Attention: Android phone will automatically clean up infrequently used software, causing APP to be closed in the background. Please turn on the relevant permissions to ensure normal use.

Watch Functions

SN88 smart watch supports a variety of functions: multiple sport modes, weather information, watch face store, breathing exercises, heart rate monitoring, sleep monitoring, blood oxygen saturation monitoring, find my phone, message notifications, and etc.

Function Descriptions

1. Change Watch Face

Method 1: Directly change the watch face on the watch. Find the menu: [Setting] or [More] → [Watch faces] to change the watch face, or press and hold the watch's main interface to switch the watch face.

Method 2: Customize the watch face and change the watch face via the APP's watch face store: [CoolWear] → [Device] → [Watch faces] → [More] → [Select picture] → OK to download and change it with the new watch face (Do not leave the download interface until the download is 100% completed).

2. Step Counting: Activity data resets every day after 00:00, and you can check the history records in the APP.

3. Sleep Monitoring: It records your sleep data, and you can check the history records in the APP (Default sleep monitoring period: 20:00pm-10:00am).

4. Weather Information: You need to connect the watch and CoolWear APP to get the weather information in your location. Moreover, you can go to [CoolWear] → [Profile] → [Unit Setting] → [Temperature] to switch between $^{\circ}\text{C}$ and $^{\circ}\text{F}$.

Note: The weather information displayed on the smart watch is obtained from a third-party weather service provider. If your smart phone and smart watch obtain weather data from different weather service providers, then the displayed weather information may also be different.

5. Message Notification: The watch can save the latest 5 messages.

6. Heart Rate Monitoring: It measures your heart rate data. To measure your heart rate: Turn on the heart rate monitoring function, and after 2 seconds it will automatically measure the heart rate, then wait for about 10-20 seconds until the measurement is completed. Besides, if you need 24H automatic heart rate monitoring, you can also set this function in the APP: [CoolWear] → [Device] → Turn on [Automatic heart rate detection].

Notes:

- 1) Ensure the sensor at the bottom of the watch slightly touches the skin and the wristband of the watch maintains a finger's width below your wrist bone.
- 2) If you need to measure the exercise heart rate, please go to the exercise mode for measurement.

7. Blood Oxygen Saturation Monitoring: It measures your blood

oxygen saturation data. You can check the historical measurement results in the APP's blood oxygen interface.

8. Music Control: When the music player on your mobile phone is turned on and the watch is connected to the APP, you can then directly control the music play/pause and volume adjustment via the watch.

9. Sports Mode: Exercise data will be automatically synchronized to the APP when connected, and you can check the detailed data records in the sports mode in the APP.

10. Breathing Exercises: Follow the on-screen instructions for inhalation and exhalation (Breathing exercises help relax a person's mood, reduce psychological stress and improve vital capacity).

11. Shutter (should be connected to the APP)

Method 1: In the APP: Go to [CoolWear] → [Device] → [Easy camera], and click the shutter button to take a photo.

Method 2: On the watch: Click the shutter button on the watch's interface to take a photo, or shake your arm to take a photo automatically.

12. Sedentary Reminder: Go to [CoolWear] → [Device] → [Sedentary reminder] to enable/disable this function. If the watch detects

no enough activities or steps during the set time period, the sedentary reminder function will be enabled, and the watch will then remind you every one hour.

13. Alarm Function: Go to [CoolWear] → [Device] → [Alarm] to set alarms according to your needs. Up to 5 alarms can be set (The alarm will only give a reminder when the set time is more than 2 minutes).

14. Call Reminder: Go to [CoolWear] → [Device] → [Call reminder] to enable/disable this function. After the call reminder function is enabled, then the watch can remind you of the incoming calls on your phone.

Note: The watch cannot be used to answer calls or reply to messages. It can only display messages or reject the incoming call.

15. Wake Screen on Wrist Raise: Flip your arm, and the screen will automatically light up.

Maintenance

Below are several useful recommendations on wearing and maintenance:

- * Keep the device clean.

2. [CoolWear] → [Gerät] → [Gerät hinzufügen] → Tippen Sie auf den gesuchten Uhrennamen, um ihn zu koppeln.

Handyeinstellungen

Stellen Sie sicher, dass die Berechtigung zum Benachrichtigen über APP in Ihrem Mobiltelefon aktiviert ist: [Mobiltelefon] → [Einstellungen] → [Benachrichtigungen] → [Berechtigungen] → [CoolWear] Setzen Sie alle Berechtigungen auf AUF.

- Besonderer Hinweis 1: Für Apple-Telefone mit einem Betriebssystem über iOS 12 gehen Sie zu [Einstellungen] → [Bluetooth] → [Gerätename] → tap  → [Systembenachrichtigungen freigeben] → Stellen Sie sicher, dass es eingeschaltet ist.
- Besonderer Hinweis 2: Wenn Sie eine Anwendung (WeChat / Skype / WhatsApp usw.) sowohl auf Ihrem Computer als auch auf Ihrem Mobiltelefon öffnen, wird auf der Uhr keine Benachrichtigung angezeigt.

Besondere Aufmerksamkeit: Das Android-Telefon bereinigt selten verwendete Software automatisch, wodurch die APP im Hintergrund geschlossen wird. Bitte aktivieren Sie die entsprechenden Berechtigungen, um eine normale Verwendung sicherzustellen.

FCC statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- 1) this device may not cause harmful interference, and
- 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could **void the user's authority to operate the equipment**.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
