

FRONT

BACK

## THE BASICS

- \* Works with MagSafe® compatible cases and phones. Remember, MagSafe® only exists in iPhone 12's and newer.
- \* Snap it to the back of your phone to charge.
- \* Fits into stands made for MagSafe® chargers.

## HEADS UP!

- \* Keep magnetically sensitive stuff away, such as: credit cards, medical devices, ninja stars, etc.
- \* iPhones automatically activate Low Charge Mode once they hit 80% to protect the battery.
- \* Heat is a normal part of charging, but no worries, sensors prevent overheating.
- \* Attention 15W nerds: 7.5W produces less heat and maintains a more steady charge at comparable speeds.

## FREEBIE ADAPTER

USB-C ports are newer and charge faster, but aren't as common.  
So here's an adapter to use your classic USB-A ports.

## Warranty

Charge Dinghy is covered under the Smartish 2 year limited warranty.

## Product Specifications

FCC ID: 2AZ51CD-BLACK  
Input: 7.5W - 9V / 2A  
Output: 5W - 5V/2A

## FCC Disclaimer

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
