Thank you for purchasing this product. In order to better serve you, please read the following instructions in detail

1. The Bluetooth speaker is guaranteed to be replaced in 30 days, with a one-year warranty and a national joint warranty. The Seller shall be responsible for the seller's extended warranty.
2. 30 day replacement means that the new product will be replaced free of charge in case of non-human fault within 30 days from the date of purchase. 1-year warranty means one year from the date of purchase. Now it is not man-made fault, free maintenance, free replacement for those unable to be repaired. The warranty date after replacement is from the date of purchase, not the date of replacement.

The following conditions are not covered by the warranty:

1. Beyond the warranty period.
2. There is no valid certificate, which is authentic and within the warranty period.
3. Damage caused by failure to use, maintain and maintain the product in accordance with the instructions.

4. Damage caused by dismantling by a repairer not approved by the company.

5. Artificial damage is not a quality problem of the product itself.

6. For more than 30 days, non functional problems, only subjective problems such as dislike of sound quality, are not covered by the warranty.

7. The battery is a vulnerable product with a three-month warranty

WARNING

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
