

Antenna Specification

PCB antenna figure:

1. Operating frequency: 433.933MHz.
2. The antenna is onboard, the PCB board is 2CM wide and the length is 17mm.
3. Antenna parameters:
Operating band: 400MHZ-480MHZ.
Receiving noise factor: <2.5 db.
Check threshold for sending and receiving switchover: -2db.
