

CE FC RoHS
Made in China

Input : DC5V/2A , 9V/2.2A
Output : 15W (MAX)

Rubber mat Anti-slip and anti-scratch

The contact surface of the stand is made of soft rubber pads to effectively protect your machine.

15W MAGNETIC ABSORPTION WIRELESS CHARGER (Instructions)

Before using this product, please read this product manual carefully

SPECIFICATION
Input:DC5V/2A, 9V/1.67A, 12V1.75A
Output:DC5V/1A, 9V/1.2A, 12V/1.25A
Power:15W Interface:USB
Material:aluminium alloy+silicone Size:60*29*95.5mm

USE
1. Only supports 15W charging for Apple 12 mobile phones
2.The built-in magnetic suction will automatically hold the mobile phonewhen you take it out , hold the mobile phone and pull it down
3.Connect the USB to the power supply and it will be on
4.After power-on,the device can be pointed at the charging sensing area of the mobile phone to complete the charging

LED
Standby state red light, charging state led blue light

PRECAUTIONS
not disassemble this product by yourself.
Do not use this product in high temperature or humid environment, kee paway from fire and water.
This product is only suitable for charging mobile phones that support wireless charging.
The charging contact surface on the back of the mobile phones must not contain metal materials

15W Magnetic Quick Charge

iphone 12 series adapters

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
