

Bluetooth pair ear neutral stereo manual

Pairing name: TWS Bluetooth version: 5.1

1. Pairing method: After opening the cover, take out the headset to automatically power on and pair.
2. There are corresponding prompt sounds for power on/off, connect/disconnect headphones, etc. The specific sound description is not specific and can be tested personally.
3. Button function (touch position):
 - a) Double click: pause/play, answer/hang up the call
 - b) Three clicks: one song on the left ear, the next song on the right ear
 - c) Long press 3S: wake up Siri
 - d) Long press 2S: Reject the call (when the call comes in, press and hold and release it after hearing a "tick")
4. When the phone is not connected after power on, it will automatically power off after 3 minutes
5. In the off state, press and hold for 3S to turn on, or take it out of the charging compartment to automatically turn on; in the on state, press and hold for 5S to turn off
6. After the headset is out of the warehouse, quickly tap any side for 5 times to clear the pairing record, and put it back into the charging compartment to restore the factory settings.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference
- (2) This device must accept any interference received, including interference that may cause undesired operation.
