1. Product Description

The iHip LED Bluetooth Headphones are wireless headphone's, which integrate FM, Bluetooth, and wired headphone functions together.
This headphone's power is Class II, supporting headset, handsfree function A2DRCP agreement and headphone itself has built-in Battery.

2. Product Information

1. A2DP lets you enjoy wireless stereo music.
2. Handsfree calling: receive or dial phone calls: music will play again automatically a few seconds after the call ends
3. Besides wireless stereo Bluetooth and hands-free function, you can use this headphone on any PC which supports Bluetooth.
4. The headphone supports TF card, which has a capacity of up to 32G at most. Download music to TF card, and insert the card into headphones, then you can enjoy MP3 music, which will be played automatically.
5. With wired Function: Link the 3.5mm jack with PC or other media audio system, then it becomes a wired headphone.
6. LED Light Function: After power is turned on LED, lights will go on when music is played. The light will flash with the music.
7. Built-in mic allows you to talk hands-free.

10. Next Song: when playing music, press "Volume+/next song" button to go forward to next song

4

11. Play/pause: When playing music, press "mode/ play /pause/phone" button to play or pause

Line-In input function:
This headset not only has MP3 and wireless Bluetooth, but also can be used like a wired headset. You just need a standard audio cable with 3.5mm jack to connect headphone to audio device.

5. Bluetooth Pairing

1. Confirm the headset is in Bluetooth mode. Indicator light will flash blue and red alternately.
2. Refer to your own mobile phone user manual, use your mobile phone's Bluetooth to search for this Bluetooth headset.
3. The headphone pairing name is: "iHip LED Headphone", select it, and press "yes or confirm" button then finish Bluetooth pairing.
4. After successfully pairing the Bluetooth headphones one time, you will not need to pair again. They will pair automatically the next time you turn them on.

5

6. Package Contents

1 LED Bluetooth Headphones
1 User Manual
1 Micro USB charging cable
1 AUX audio cable

7. Charging

When charging, the indicator light will be red. After charging has finished the indicator light will turn off. Charging time may take 2 - 3 hours.
When fully charged, the red light will turn off.

FCC

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
