Factory Instructions | Wireless Party Speaker mini Quick Start Guide

CHARGING YOUR SPEAKER

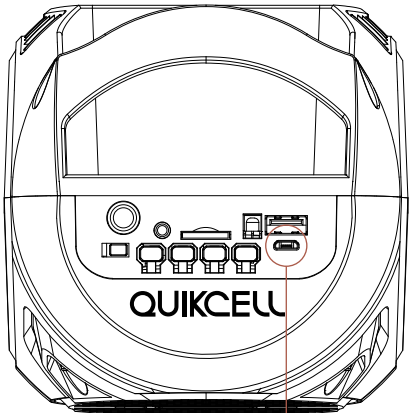

Plug micro-USB into Party Speaker and USB into a compatible port (such as a wall charger, car charger, or computer). LED indicator light will be RED while charging and goes off when fully charged.

Conecta el micro-USB en Party Speaker y el USB en un puerto compatible (como un cargador de pared, un cargador de automóvil o una computadora). La luz indicadora LED será ROJA durante la carga y se apagará cuando esté completamente cargada.

**USB charging port not included*

**Puerto de carga USB no incluido*

STEP 1

Micro-USB Charging Port

PAIRING YOUR DEVICE

On the top of your Party Speaker mini slide the ON/OFF switch to ON. Your LED lights will begin flashing and you will hear "The Bluetooth device is ready to pair." In your devices Bluetooth settings look for "PARTY MINI" to appear as an option and select. You will then hear "Bluetooth device paired successfully" to know your device has successfully paired.

En la parte superior de tu Party Speaker mini, desliza el interruptor de ENCENDIDO/APAGADO a la posición de ENCENDIDO. Las luces LED comenzarán a parpadear y escucharás "El dispositivo Bluetooth está listo para emparejarse". En la configuración de Bluetooth de tus dispositivos, busca "PARTY MINI" para que aparezca como una opción y selección. A continuación, escucharás "dispositivo Bluetooth

STEP 2

emparejado correctamente" para saber que tu dispositivo se ha emparejado correctamente!

FCC Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
•Reorient or relocate the receiving antenna.
•Increase the separation between the equipment and receiver.
•Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
•Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RFI exposure requirement. The device can be used in portable exposure condition without restriction.
