⚠ Precautions for Installation

1. Use an adapter with 5V or less.
2. The area around the camera lens may be hot due to internal heat dissipation. Do not cover the product with a box, cloth, etc.
3. Install in a place out of reach of children and pets.
4. Be careful not to expose to water/moisture.
5. The measured temperature/humidity may differ from thermometers/hygrometers used at home.
6. Use in environments between -10°C~50°C. (between 14°F and 122°F)
7. Installing near heating products may risk fire or electric shock.
8. Be careful not to let conductive materials touch or adhere to the camera.
9. Do not disassemble or modify the product arbitrarily.

How to Connect the App

STEP	TO DO
1 Install APP	Download the 'EGLOO' app from the App Store or Google Play Store.  
2 Add Device	After login in, tap the '+' button at the top of the screen and select the S8 camera icon.
3 Start	Check if the red LED on the camera is on, then press NEXT
4 Follow Instructions	When the white LED blinks, press NEXT
5 Select Wi-Fi	Select the Wi-Fi network you want to connect to the camera and enter the password. * If you enter an incorrect password, the connection process will not proceed normally even if you move to the next step. Please make sure to enter the correct password.
6 Connection	Please select NEXT and connect by selecting the Wi-Fi signal name starts with "EGLOO_CAM" in [Wi-Fi settings]. * Please select "Stay Connected" when "Not sure of internet connection" pop up and proceed to the next step.
7 Follow Instructions	After returning to the previous app screen, please complete the registration. If the above method fails, reset the product by pressing the reset button and proceed again from step 2 to step 6 and tap the 'Register QR code' button to point the QR code generated on the smartphone screen to the camera lens and move it back and forth slowly to recognize.
8 Complete	Once registration is complete, set a name for your camera and start using it.

Frequently Asked Questions (FAQ)

Q. Can I view multiple cameras at the same time?

After registering multiple devices, you can view up to four split-screen with four sections. On the APP home screen, select the  icon.

Q. How do I record videos?

To record and replay past footage, you will need to use either the cloud service or a Micro SD card. You can also use both methods simultaneously, so please keep this in mind when using the service.

Q. I'm having trouble registering the camera in the app. What should I do?

Please check the following to ensure a smooth connection.

- ☒ Is your phone connected to Wi-Fi?
- ☒ Is the Wi-Fi name composed of letters and numbers?
- ☒ Is the Wi-Fi password entered correctly?
- ☒ Is the camera already linked to another account?

Q. Can I share the camera with other people?

Through camera sharing, multiple users can each view the footage in the app. For detailed setup instructions, search for "EglooCam Device Sharing Method" on Youtube.

Q. Can I use a portable battery (power bank)?

We do not recommend using a portable battery (power bank) as the power supply may be unstable or there may be a risk of power unit damage due to overcurrent. If unavoidable, please use a product that is not for fast charging and operates at 5V or lower.

Model Name		
Purchase Date	Date: ____ / ____ / ____ (Month/Day/Year)	
Purchaser	Name	
	Phone Number	
	Address	
Place of Purchase		

■ Warranty instructions

For specific instructions about how to obtain warranty service for your Device, please contact Egloo Support team using the contact information provided below. In general, you will need to deliver your Device in either its original packaging or in equally protective packaging to the address specified by Customer Service. Before you deliver your Device for warranty service, it is your responsibility to remove any removable storage media and back up any data, software or other materials you may have stored or preserved on your Device. It is possible that such storage media, data, software or other materials will be destroyed, lost or reformatted during service, and we will not be responsible for any such damage or loss.

Email : usa@truen.co.kr
Contact : <https://cam.egloo.co.kr/contact/contact01.php>

■ A/S (Repair) Information

We provide free A/S service if the product malfunctions under normal use within one year from the purchase date. However, please note that even within the warranty period, repairs will be charged if the malfunction is due to user negligence or natural disasters.

FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation
