Thank you for selecting our product. Before utilizing it, please take the time to thoroughly review and strictly adhere to the included instructions and safety precautions.

Specification

• Input: 10V/5.0V/6.22A/10V/1.67A

• Output 1: 15W Max (Phone)

• Output 2: 5W Max (Earbuds)

• Output 3: 2.5W Max (Watch)

• Size: 68*68*66,8mm

Product Details

1.Wireless Charging Area1 (Phone)

2.Wireless Charging Area2 (TWS)

3.Wireless Charging Area3 (Watch)

4.Touch Switch

5.Type-C

6.Atmosphere Light

Package Contents

1x Wireless Charger

1x Charging Cable

1x User Manual

1x PD 20W Adapter

How it works

1.Connection Instruction

• Connect the power supply according to the diagram.

• Place the device on the wireless charging surface.

• When the indicator light is on continuously, it means that the device is charging.

2.Power Indicator Light Instruction

LED Indicator Status	Status
Light goes flash in sequence, green, red, blue, white, green, and white	Connected to the power
The warning light is on	Standby mode
Color cycling	Charging (Phone/TWS)
Flashing red	Alert: object detected with charging, over-temperature, under-voltage, or no object present

When the switch is manually touched, the working modes are Warm white light → Color cycling → Lights off → Warm white light

Usage Details

This part is a magnetic charging area with a built-in magnet, which can easily accommodate phones that support magnetic charging (example: iPhone 12 and later series). And it can be folded and stored, does not take up the space, lightweight and easy to carry.

Important Safety Instructions

• Do not squeeze or crush.

• Do not disassemble or put it into fire or water to avoid short circuit and leakage.

• Do not use the wireless charger in high temperature, high humidity or corrosive environments to avoid circuit damage and current leakage.

• Do not place the wireless charger too close to magnetic cards with magnetic stripes or chips (ID cards, bank cards, etc.) to avoid the magnetic cards becoming invalid.

• Please stay away from implanted medical devices (pacemakers, insulin pumps, hearing aids, etc.) to avoid magnetic coil failure. The distance between the device and the wireless charger should be at least 20 cm to avoid possible interference with medical devices.

• Children should be supervised to ensure that they do not use the wireless charger as a toy to avoid unnecessary accidents.

• The charger and receiver should be kept away from radio and other signals.

• If you need to clean the charger, please disconnect the power supply.

• Please use it in an ambient temperature of 0-40°C.

• The product is suitable for mobile phones, headsets and watches 2 & later series that support Qi protocol.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
• This device may not cause harmful interference.
• This device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.
The equipment generates noise and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
