

# INSTRUCTION MANUAL

Please keep reading the following safety notes before use or examination.

i). Product description.

1. This product is a component that can detect the environment temperature, humidity, atmospheric pressure, etc., and then send the detected information to the server through bluetooth access to the network.

2.  :FOR INDOOR USE ONLY.

3. This product is used for internal temperature measurement in office.

ii). Warning.

1. equipment shall not be installed in air ducts specifically fabricated for environmental air; equipment intended for use in spaces used for environmental air, such as the space over a hung ceiling used for environmental air-handling purposes, is required to be provided with a metal enclosure or with a non-metallic enclosure having adequate fire-resistance and low smoke-producing characteristics. Determination of low-smoke-producing characteristics is made in accordance with the Standard for Fire Test for Heat and Visible Smoke Release for Discrete Products and Their Accessories

Installed in Air-Handling Spaces, UL 2043.

2. If the device is connected to a voltage beyond a specified range (e.g. 380V), it will cause damage to the device.

3. If the equipment is used in a manner not specified by the manufacturer, the protection provided by the equipment may be damaged.

4. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

5. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

6. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

7. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

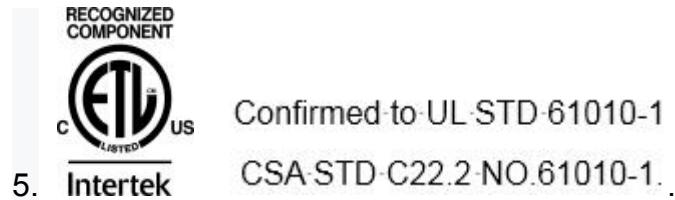

iii). Technical parameter.

1. Model: S001CEN0330010.

2. Product name: PRECISION ANCHOR.

3. Input: 100-277Vac±10% 50/60Hz 100 mA.

4. Use ambient temperature 0-40°C, humidity 10-90%, altitude 2000m, overvoltage grade II, pollution grade II.

iv). Installation

1. Before installation of equipment, please install the 1/2" thread interface and a switch where the equipment is to be installed, the switch is connected to 100-277V voltage, the switch with a specification no less than 1A/250V.
2. Turn off the switch and make sure there is no voltage at the switch output. Peel the wire on the equipment by 6mm, then connect to the two output terminals of the switch respectively, fixed.
3. Fix the device to the installed 1/2" thread interface.
4. Complete the installation, turn on the switch and work.

v ). Operation instruction.

1. Power on after the product is installed;
2. Activate the device's Bluetooth when you see the indicator light flashing;
3. After the Bluetooth device is connected to the product, The product starts working, and transferring data to the server.

vi). Equipment maintenance and service.

1. Maintenance of equipment. If the indicator light of the equipment is not on or the Bluetooth is not working, the equipment can be powered on again after power off.

2. When something goes wrong with the product, if you can't fix it yourself, send it back.

3. If the product is damaged, please send it back.

Manufacturer name: Ten Pao Industrial Ltd.

Address: Room 10-12,6/F.,Kwong Sang Hong Centre 151-153 Hoi Bun Road, Kwun Tong, Kowloon Hong Kong.
