Flight Warnings

Remote-controlled aircraft is a commodity with a dangerous possibility. When flying, pilots must pay attention to unpredictable accidents such as aircraft damage and personal injury, and understand the responsibility for accidents caused by their own negligence.

1. Do obey local flight management laws and regulations at all times.
2. Do not use aircraft in no-fly zones including but not limited to airport, military base, government office

building, power station, gas station, railway, port, traffic station and areas with flammable and explosive possibilities.

2. Do not use aircraft in dangerous areas, these areas include but not limited to below.
- 1) Water: swimming pool, river, lakes, ponds...
- 2) High ledges / surfaces: rooftops, stairs, steps...
- 3) Road & driveway: parking lots, roads with traffic, bicycle lanes...
- 4) Stay away from high voltage wires, electric wires, electricity substations...
- 5) Stay away from areas with lots of obstacles: forests...
- 6) Stay away from the crowds.
3. Do not use this aircraft in inappropriate weather conditions such as wind speed level 3, stormy rainy days, snowy days, extra hot summer days...

Maintenance Suggestions

1. Please keep the package box for further reference

since it contains important information. Also store the aircraft in the box to avoid damages.

2. Please keep the aircraft away from water.
3. Please keep the aircraft away from heat source, for example, gas stove, grill, heaters, also long-time exposure may lead to deformation and damages. Do not use Go Go Bird in humid conditions and stay away from water due to its built-in electronic components. Please use a clean cloth to wipe the aircraft. If the surface gets dirty. Do not use water to wash the aircraft.
4. During daily storage, please pay special attention to the wings and tail.

Battery Warnings

1. Rechargeable lithium battery is only to be charged under adult supervision. Do not overcharge the lithium battery.
2. Do not try to short-circuit the lithium battery. Do not match with other lithium batteries.
3. Lithium battery shall not be put into fire, heated or exposed to the sun for a long time.
4. Lithium battery shall not be contaminated with water

or liquid.

5. Lithium battery shall not be hit or beaten.
6. Lithium batteries shall be recycled at local recycling center and must not be disposed of randomly.
7. After the rechargeable lithium battery is fully charged, please unplug the cable immediately.
8. AAA batteries are to be inserted into remote control with the correct polarity. Non-rechargeable batteries are not to be charged. Different types of batteries or new and used batteries are not to be mixed. Exhausted batteries are to be removed from the remote. The supply terminals are not to be short-circuited. Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries. Please do not use rechargeable batteries for the remote control. Rechargeable batteries are to be removed from the remote control before being charged.
9. This toy contains a lithium battery that is non-replaceable.
10. The toy is only to be connected to Class II equipment bearing the symbol.

Go Go Bird 001

PRODUCT NAME: Bionic Flapping-wing Bird

PRODUCT MODEL: Go Go Bird 001

AGES: 8+

PRODUCT SPECIFICATIONS

Net Weight:	≈17g (Lithium battery included)
Product Size:	230mm × 123mm
Package Size:	390mm × 230mm × 75mm
Material:	Plastic
Input:	DC5V 0.3A
Recommended Flight Altitude:	< 30 meters/98 feet
Remote Control	< 80 meters/262 feet (Within eyesight Distance Range - recommended)
Application:	Outdoor, not recommend to use when wind speed ≥ level 3

LITHIUM BATTERY SPECIFICATIONS

Capacity:	3.7V, 100mAh (Rechargeable)
Flight Duration:	≈10 minutes
Charging Time:	≈20 minutes

1. Go Go Bird & Accessories

2. Flight Operation

A. Lithium Battery and Remote Control
First use the Micro USB cable to charge Go Go Bird, cable can be connected to an adaptor, computer or other USB charging ports. The charging indicator light in the front of Go Go Bird abdomen will illuminate. The red light indicates that the battery is charging. When charging is complete, the red light will turn off. (Charging time is around 20 minutes, flight duration is around 10 minutes.) Press the power button to turn Go Go Bird on and check to see the red indicator light in the back of Go Go Bird abdomen is on. Press the power button again to turn Go Go Bird off and the red light will be off.

Open the battery compartment cover and install 2 1.5V AAA batteries. (NOT INCLUDED)
The red light indicates the remote is working. Hold the power button for 2 seconds until the signal light turns on to turn remote off. The remote will turn off automatically if there is no input for 10 minutes.

B. Pairing Go Go Bird with the Remote Control
Your Go Go Bird should already be paired with the remote control, but if you are experiencing connectivity issues, please refer to the steps below.
1. Turn Go Go Bird and the remote control on at the same time, also check to see that their red indicator lights are on.
2. Place the remote control next to Go Go Bird and hold the remote control trigger button until you see that the remote control red indicator light goes out first, then starts to flash, then release the trigger button.
3. When the red indicator lights of Go Go Bird and the remote control are flashing at the same time, it means that the pairing is in progress without any operation.
4. When the red indicator lights of Go Go Bird and the remote control are steady on, the pairing is successful.
5. If it fails to pair, repeat the steps above.

C. Flight Operation
Turn on the Go Go Bird and the remote. Hold Go Go Bird horizontally and press the power button/trigger button on the remote to make the wings begin to flap. Gently toss Go Go Bird forward to begin flight. Press this button again to make the wings stop flapping.

You can use the joystick of the remote to monitor Go Go Bird's flight. Move joystick upwards to speed up, move joystick downwards to slow down, move joystick left to make Go Go Bird turn left, move joystick right to make Go Go Bird turn right.

The packaging has to be kept since it contains important information.

3. Additional Information

- (1) When removing Go Go Bird from the box, try not to grab the wings and tail. Keep Go Go Bird away from sources of heat and sharp objects.
- (2) Be careful when flying at high altitudes. Go Go Bird may get stuck on roofs, ledges and trees. Avoid water, forests, power lines, etc.
- (3) Please keep Go Go Bird within eyesight when flying. Recommended flight altitude should be within 30 meters. Recommend remote control distance range within 80 meters.
- (4) Press the power button/trigger button in an emergency to make Go Go Bird stop flying and land immediately.
- (5) Check the wires, battery, shell, and other parts regularly. If there is damage, do not use it until it is repaired.
- (6) Rechargeable batteries are only to be charged under adult supervision.
- (7) Please use two 1.5V AAA batteries for the remote control. AAA batteries are to be inserted into remote control with the correct polarity. Non-rechargeable batteries are not to be charged. Different types of batteries or new and used batteries are not to be mixed. Exhausted batteries are to be removed from the product. The supply terminals are not to be short-circuited. Do not mix old and new batteries. Do not mix alkaline standard (carbon-zinc), or rechargeable batteries.
- (8) This product is not suitable for children under 3 years old. Please keep the package box as it contains information.
- (9) For lithium battery, kindly pay attention to below:
a. Keep small cells and batteries which are considered swallowable out of reach of children.
b. Swallowing may lead to burns, perforation of soft tissue and death. Severe burns can occur 2 h of ingestion.
c. In case of ingestion of a cell or battery, seek medical assistance promptly.
d. Do not disassemble. Do not short circuit. Do not dispose of in fire.
e. Do not expose to high temperature (60°C/140°F).
f. Do not open. Do not crush.

4. Troubleshooting

- a. No response when turning on remote control.
Double check whether AAA batteries are installed correctly with the polarity or replace them with new AAA batteries.
- b. No response or weak performance when turning on Go Go Bird.
Make sure Go Go Bird is fully charged.
c. Remote control fails to control Go Go Bird.
Repeat the pairing steps.

FCC Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) the device may not cause harmful interference, and (2) the device must accept any interference received, including interference that may cause undesired operation.

Notes: This product may cause interference to radio receivers, in particular to Class B digital devices, pursuant to Part 15 of the FCC Rules. These items are designed to provide reasonably protected against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio if the accident does cause them. It is recommended to follow the following measures to reduce the risk of interference: (1) Turn the equipment off and on. (2) Move the equipment away from the radio receiver. (3) Use shielded cables. (4) Use a different power outlet. (5) Use a different power cord. (6) Use a different power plug. (7) Use a different power cord. (8) Use a different power plug. (9) Use a different power cord.
